Message from our Chair
We can look to the future with confidence

Manuel Leuthold

In 2025 we delivered another solid year, with a net profit similar to that in 2024. We didn't waiver in fulfilling our mission as Geneva's cantonal bank, despite the many uncertainties weighing on our country, its economy and its people.

Our business volumes grew at an encouraging pace. We saw expansion in both our loan book and customer deposits, again testifying to the strengths of our diversified business model, perfectly suited to respond to our clients' needs.

Our balance sheet is healthy and we're continuing to shore up our capital, thus securing a stable, lasting future for our Bank. I would also mention that the growth in business volumes came without any additional risk-taking or any compromise on our profit margins. At the Board of Directors, we continually and carefully monitor the numerous risks our Bank is exposed to.

Strong headwinds in 2025

2025 was not an easy year for the Swiss economy. Our companies faced additional pressure from the US tariffs on Swiss goods and the Swiss franc's sharp appreciation against the dollar. But our economy's versatility and capacity to adapt once again enabled Switzerland to overcome these obstacles.

On the other hand, 2025 was a great year for Swiss real estate and especially residential property. The market was supported by persistently strong demand and low interest rates, all of which translated into a marginal default rate on our loan book.

Financial markets performed well in 2025; investors appeared unfazed by the turbulent geopolitical climate. This lifted the volume of client assets we manage and therefore our fee income.

New legal framework

The cantonal law governing our Bank (LBCGe) was revised in the wake of the 2023 update to the Swiss federal law on public limited companies. The changes to the LBCGe were designed to align our Bank with the new requirements under the Swiss Code of Obligations, and have resulted in a more modern governance system, improved transparency and greater agility, as reflected in the stock split we carried out in October 2025.

The revised LBCGe was approved unanimously by the Grand Council of Geneva and went into force on 1 September 2025. But before that, we updated our Bank's articles of association in line with the revised LBCGe; the new articles of association were approved at the general shareholders' meeting on 29 April 2025 and then ratified by the Grand Council on 22 May 2025. They took effect in October 2025.

Bottom line that benefits all our stakeholders

Our 2025 net profit will benefit everyone who played a role. At the upcoming general shareholders' meeting, the Board of Directors will propose a dividend of CHF 0.70 per share, up 7.7% from the prior year. We also intend to further build up our equity in order to support the Bank's future growth. The value we created in 2025 will be shared with our shareholders, our employees, our clients and our broader ecosystem.

Acknowledgements

On behalf of the Board of Directors, I would like to thank everyone who has contributed to the smooth operation of BCGE Group. Our thanks go in particular to our shareholders for their unfailing support, to our customers for their trust and loyalty, and to our employees who work tirelessly to serve those customers. We also express our gratitude to the Executive Board, steered by the expert hands of our CEO Nicolas Krügel, and to our supervisory authorities for their continual, constructive guidance. On a personal level, I would like to thank my fellow Board members for their diligence and dedication.

Our Bank can look to the future with confidence.

Message from our CEO
A year of growth, innovation and diversification

Nicolas Krügel

It took nerves of steel to navigate 2025. Switzerland – like all of the United States' trading partners – grappled with Washington's numerous tariff announcements, and the swift drop in the US dollar weighed on Swiss exports. Economies in southern Europe picked up during the year, but political instability in France and structural headwinds in German manufacturing resulted in weaker demand across the continent. In Switzerland, the strong franc shaped currency movements while interest rates hit rock-bottom. In this uncertain environment, our advisors stood by our clients, providing them with clear insights, concrete facts and a sound basis for decision making. We partnered with our clients to help them reach their goals.

Gaining market share

This approach was instrumental to our business development in 2025. We grew significantly and expanded our market share, continuing the trend from 2024. Our loan book added 3.9%, our assets under management increased by CHF 3.4 billion, and we now serve and advise 258,632 customers.

Solid financial performance with a healthy risk profile

Our net interest income was impacted by the return of 0% interest rates in Switzerland. We were able to offset much of that impact by working strategically on our margins and growing our fee and commission income. We also expanded our capacity to serve wealthy clients by rolling out new, high-quality discretionary asset-management services, which should position our parent company as one of the region's leading private banks.

Firm cost control kept our cost/income ratio at 53.7% and enabled us to achieve significant productivity gains. We ended the year with an ROE of 9.1%, underscoring our ability to create shareholder value in line with other banks of a comparable size and complexity.

Our liquidity ratios sit well above the regulatory requirements. Our loan book is financed entirely by customer deposits and has a relatively low default rate. Our total equity ratio remains high, notwithstanding the implementation of the final Basel III standards, the sustained growth in our balance sheet and the reimbursement of our Additional Tier 1 (AT1) capital loan. All this gives us a healthy risk profile, as confirmed by S&P's decision to maintain our AA– rating.

Further innovating and modernising our Bank

2025 was a year of innovation on all fronts. In March, we became the first category 3 cantonal bank to issue a euro-denominated bond in the European market. The issue was six times oversubscribed, illustrating how we're able to diversify our sources of financing. Also in the spring, we introduced our Stu card for young people, which has proven popular. In the fourth quarter we unveiled our Optimum range of discretionary asset-management solutions, which are being implemented by the investment team headed by our new CIO. Our new Boost and Boost+ loyalty programmes let savers earn up to 1.4% additional interest on their accounts – it's the first programme of its kind on the market. And we launched two new Synchrony Equantia funds at the end of the year; these actively managed funds use an AI-driven process to select the investment universe, with many institutional investors showing an interest.

We acquired a new building in Vernier in December. It will allow us to both shrink our carbon footprint – thanks to its SNBS certification – and give our employees more modern workspaces linked to the main public transport lines. The new building will support our growth going forward.

In 2025, we continued our healthy growth trajectory across our franchise. Our diversified business model enabled us to stand firm in a turbulent environment and create value for all our stakeholders. This success was made possible through the hard work of our employees, who stood by our clients and delivered proactive responses. My sincerest thanks for your efforts. I would also like to thank our Board of Directors, shareholders and clients for their trust in us, which is key to our Group's future success.

About BCGE Group
A universal bank firmly rooted in Geneva since 1816

At BCGE, we take pride in being a bank that is reliable, sound, agile and performance-driven. Since 1816, we have continued to evolve while staying true to our traditions and cultivating close relationships with our clients.

Putting families first
Banque Cantonale de Genève (BCGE) was born 210 years ago at a time when only the most privileged members of society had access to banking and financial services. It was created by Genevans to help families manage and protect their finances by encouraging them to put aside savings.

A universal bank
We've built upon that rich history to evolve and grow over time – for instance, we added advisory services and loans for business owners. Today, we are a universal bank that offers a wide range of banking and financial services to ensure that all of our clients' needs are met.

Anchored in Geneva
We're based in Geneva, a global hub for financial expertise. As the partner of choice for Geneva's businesses, we contribute to bolstering the local and national economy. And like Geneva, we have a broad international reach, thanks to our role as a leading centre for global trade.

Our subsidiaries

Banque Cantonale de Genève | France

Banque Cantonale de Genève France SA provides loans for businesses and real estate professionals, as well as wealth management services for private clients. Its headquarters are in Lyon and it also has branches in Annecy and Paris.

CAPITAL TRANSMISSION AUTHENTIC SWISS PRIVATE EQUITY

Capital Transmission SA is a private equity investment firm that aims to create long-term value for the businesses it invests in. It invests its own capital in the transmission and expansion of businesses, both in the greater Geneva region and in other parts of Switzerland and Europe.

dimension

Dimension SA specialises in the sales, acquisition and valuation of businesses. It supports business owners by helping them enhance the value of their companies and carry out mergers and acquisitions.

MONTFORT

Mont-Fort Funds SA provides representation for foreign investment funds in Switzerland, diversifying BCGE Groups' paying agent services and strengthening its position on the asset servicing market.

LOYAL FINANCE FIXED INCOME ASSET MANAGEMENT

Loyal Finance AG is a fixed income specialist that works with institutional investors in the Swiss German region, enhancing BCGE Group's expertise in managing fixed-income instruments and broadening our services and client base within Switzerland.

Stock exchange listing
2025 performance of BCGE's share: –3.5%

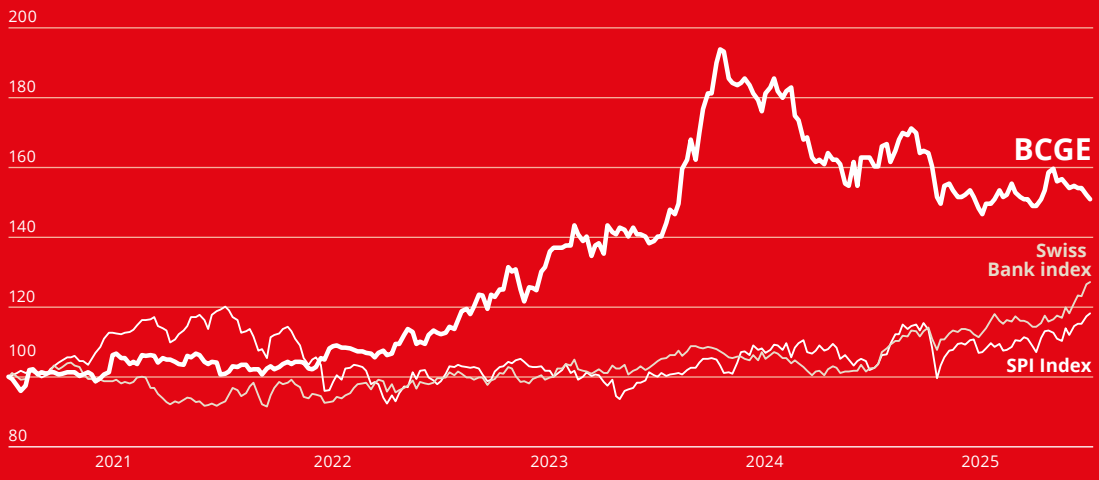

BCGE's share edged down in 2025, ending the year at CHF 24.60.[1] However, the share's market value was still below its book value of CHF 34.70.

The Bank's market capitalisation stands at CHF 1.771 billion, while its equity capital amounts to CHF 2.499 billion. The stock therefore has high upside potential.

[1] As indicated in Section 2.4 of this report, the Bank's share underwent a split on 15 October 2025 at the opening of the SIX Swiss Exchange. At the time, it was composed of 7,200,000 shares with a nominal value of CHF 50 per share and has now been divided into 72,000,000 shares at CHF 5 per share.

Always within reach
No matter where in Geneva you are

Global connections
Powered by our network of subsidiaries

Our mission, vision and values
We want to help you fulfil your dreams

We're here to serve our individual, corporate, institutional and public-entity clients in Geneva Canton, Switzerland and abroad. **Our priviliged relationship with our clients is built on:**

- our deep knowledge of the markets in which they operate
- the quality of our advice
- the reliability of our services
- our pragmatic, action-oriented approach to sustainability.

We are here to offer high-quality financial services to our clients, Geneva and the entire region at every step of their journey while deploying responsible management practices.

At BCGE Group, we adapt to each client segment to ensure that our clients' needs are met and improve their banking experience.

Front-office divisions

Individual Clients and Online Banking

- Managing our branch network in Geneva Canton
- Overseeing all loans for clients in Switzerland, France and abroad
- Developing our range of digital solutions

Corporate banking and trade finance

- Serving corporate clients in Switzerland and France, multinationals, and partners active in real estate and construction
- Lending to public-sector entities
- Covers all commodities trading activities
- Capital Transmission SA, Dimension SA and Banque Cantonale de Genève France SA are attached to this division

Wealth and asset management

- Covers all wealth management activities
- Developing products and services for our institutional and individual clients
- Working with independent asset managers
- Loyal Finance AG, our branches in Zurich, Lausanne and Basel, and representative offices in Hong Kong and Dubai are attached to this division.

Support and control divisions

Finance

- Ensuring that our financial framework is well-structured, high-performing and dynamic so that we can benefit from competitive financial conditions
- Implementing processes to proactively identify and manage risks and optimise our internal control system
- Managing the Bank's balance sheet to ensure effective control over risks that are inherent to the banking business
- Mont-Fort Funds SA is attached to this division

Legal and compliance

- Reducing the bank's exposure to legal risks by providing legal support to our divisions and governing bodies
- Ensuring that the Bank complies with all legal and regulatory requirements and that compliance controls are effectively implemented
- Ensuring that the Bank complies with Swiss and foreign tax regulations

Operations

- Providing us with the necessary infrastructure to deliver our products and services so that we can execute our strategies in each of our business lines and meet all regulatory requirements – all within a highly productive environment
- Defining and implementing a technology strategy and organisational plan so that we can anticipate and adapt to new developments in the industry

We strive to fulfil the dreams of others.

At BCGE, we strive for authenticity, courage and fairness in all our endeavours as we seek to create value for our clients, shareholders and employees. This means taking measured risks in order to seek appropriate returns, while complying with the regulations that apply in the jurisdictions in which we operate. We then proactively manage these risks. This provides us with long-term free cash flows to generate returns on invested capital, unpderin organic growth and invest in high-performing technology.

Each day, we are driven by our three key values: authenticity, courage and fairness.

When building our teams we look for creativity, a desire to excel and an enterprising mindset. We bring together people with diverse but complementary backgrounds. Our teams are made up of banking experts, versatile employees and specialists in financial services. Our teams are spread across all of the Bank's business lines and strategic activities, but ultimately, we're all working towards the same objective: to meet our clients' needs by offering them a competitive range of services.

Corporate culture

Authenticity

- At BCGE, creating space for transparent and constructive dialogue is a cornerstone of our corporate culture.
- We encourage close contact and direct exchanges between our managers and our employees to promote innovation and a solution-driven approach.
- We're people-oriented. We want to simplify the day-to-day lives of our clients and closely engage with them so that we can offer them truly personalised services.

Courage

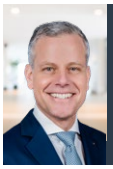

- We value the courage of employees who are driven by their convictions, are able to adapt and have an enterprising streak – qualities that allow us to evolve.
- We actively take on the challenge of ensuring that the knowledge and skills required for highly specialised roles are passed down by carefully managing key positions and key employees.
- As a universal bank, we stand out for our customised, highly specialised banking and financial services.

Fairness

- We encourage our employees to further develop their professional skills so that each of them has the opportunity to shine.
- We offer them advanced, continuous training in all areas of banking and finance so that they can prepare for and adapt to changes in the sector.
- We're constantly evolving. We seek to mobilise our expertise and look to the future so that we can continue to meet our clients' needs over the long term. When our employees thrive, BCGE thrives!

Shareholder information
Corporate governance

1. Group structure and ownership

1.1 Group structure

1.1.1 Operating structure

- Banque Cantonale de Genève (hereafter BCGE) is a limited company established by public law according to Article 763 of the Swiss Code of Obligations (CO). It has the status of a cantonal bank as defined by the Swiss Federal Act on Banks and Savings Banks (LB).
- The Bank was registered in the Geneva Trade Register on 17 December 1993 and conducts its business under the registered name "Banque Cantonale de Genève SA".
- The Bank's headquarters and governing bodies are located in Geneva.
- BCGE operates branches and agencies, and representative offices abroad.
- The profile of the Group and its subsidiaries can be found on pages 6 to 11 of this report.
- The scope of consolidation is presented in sections 1.1.3 and 2 of this report.
- BCGE is made up of six divisions headed by members of the Executive Board.
- The CEO and his staff oversee coordination and collaboration across all divisions using a matrix structure.
- They are supported by various strategic committees that have been assigned key responsibilities and controls by the Executive Board.
- The operating structure of BCGE as at 1 March 2026 is shown on pages 12 and 13 of this report.

1.1.2 Listed company

The Bank is listed on the SIX Swiss Exchange. Since its 72,000,000 registered shares are listed, its market capitalisation is calculated based on a price of CHF 24.60 as at 31 December 2025[1] (CHF 25.50 as at 31 December 2024[2]).

Market capitalisation	CHF 1,771 million
Security number	148 589 935
ISIN	CH1485899350

1.1.3 Scope of consolidation

The full scope of consolidation as at 31 December 2025 consists primarily of the following subsidiary companies (in which BCGE holds a stake of at least 50%):

- Banque Cantonale de Genève France SA, Lyon, share capital of EUR 50 million
- Capital Transmission SA, Geneva, share capital of CHF 2 million
- Dimension SA, Lausanne, share capital of CHF 160,000
- Mont-Fort Funds SA, Val de Bagnes, share capital of CHF 150,000
- Loyal Finance AG Zurich, share capital of CHF 200,000
- Rhône Saône Courtage Sàrl, Lyon, share capital of EUR 10,000
- Rhône Saône Léman 2 SNC, Lyon, share capital of EUR 10,000
- Swiss Public Finance Solutions SA, Geneva, share capital of CHF 400,000
- BCGE Asia Company Limited, Hong Kong, share capital of HKD 5,000,000

[1] See section 2.4. of this report for the share capital structure.
[2] The share value at the end of 2024 was CHF 255, following the stock split in October 2025, the equivalent of CHF 25.50 at the current share price.

1.2 Major shareholders

Information on the major shareholders known to BCGE:

Major shareholders' equity interests

As at 31 December 2025[1]

Shareholders	Registered shares	Total votes	Total nominal value	% capital and votes

ser-ag.com/fr/resources/notifications-market-participants/significant-shareholders.html#/

1.3 Cross holdings

BCGE is not aware of the existence of any cross holdings exceeding 5% of the capital or total eligible votes.

2. Capital structure

2.1 Capital

The Bank's capital currently amounts to CHF 360,000,000.

2.2 Capital fluctuation margin

There are no provisions in the Articles of Association authorising the Board of Directors to increase or reduce the capital (fluctuation margin) or authorising a conditional capital increase (conversion or option rights).

2.3 Changes in share capital

No changes have been made to the share capital over the last three years.

2.4 Shares and participation certificates

- The Bank split its share capital with effect from the opening of the SIX Swiss Exchange on 15 October 2025. The Bank's capital previously comprised of 7,200,000 registered shares with a par value of CHF 50 per share. It is now divided into 72,000,000 registered shares with a par value of CHF 5 per share, all fully paid up and listed on the Swiss stock exchange.
- All the shares carry the same financial and ownership rights.
- There are no participation certificates.

2.5 Dividend-right certificates

There are no dividend-right certificates.

[1] The 10-for-1 stock split, which took place on 15 October 2025, multiplied the number of shares (and therefore the total votes) by ten. However, this transaction did not change the breakdown of shares held by the main shareholders, which remains unchanged compared with 31 December 2024.

2.6 Restrictions on transfers and registration of nominees

2.6.1 Restrictions on transfers

- Article 3, paragraph 9, of the Bank's Articles of Association contains an anti-fiduciary clause providing that buyers are only included in the shareholder register with voting rights to the extent that they expressly declare that they acquired the shares in their own name and for their own account.
- Article 189, paragraph 2, of the Constitution of the Republic and Geneva Canton also provides that the Canton and the municipalities must hold the majority of the voting rights attached to the Bank's share capital.
- Article 7, paragraph 3 of the Act of the Banque Cantonale de Genève (Loi sur la Banque cantonale de Genève (LBCGe) in force since 1 April 2016) specifies that the Canton, the City of Geneva and the other municipalities represented by the Association of Geneva Municipalities (Association des communes genevoises, ACG) must enter into a shareholder agreement governing the minimum number of shares that must be held by each public authority.

2.6.2 Reasons for granting exceptions

No exceptions are granted.

2.6.3 Registration of nominees

As at 31 December 2025, there is no statutory or regulatory provision permitting nominees to be included in the shareholder register.

2.6.4 Procedure

Article 3, paragraph 10 of the Bank's Articles of Association stipulates that the Board of Directors may specify the terms and adopt the regulations required for the implementation of this Article. Such regulations must set out the cases in which the Board or any committee appointed by it may authorise exceptions to the restrictions to registration or to the regulation on fiduciaries or nominees. No such regulations have been promulgated to date.

2.7 Convertible bonds and options

BCGE has not issued any convertible bonds or options.

3. Board of Directors

3.1 Members

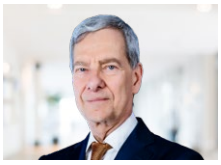

The Board of Directors consists of 11 non-executive members, 10 of whom are independent within the meaning of FINMA Circular 2017/1 Corporate governance – banks.

No director:

- is or has, in the previous two years, been employed in another function within the institution.
- has held the position, in the previous two years, of the Bank's lead auditor within the auditing firm.
- has any commercial links with the Bank which, due to their nature and scope, would lead to conflicts of interest.
- has a qualified holding (within the meaning of Article 3, paragraph 2, letter c-bis of the Banking Act) in the Bank or represents any such qualified holder.
- holds a full-time position in a cantonal or municipal executive body.
- is part of the executive board, operational management or audit function of any other bank.
- is a member of the board of directors of another bank whose geographical and sectoral scopes of activity are in direct competition with the Bank.
- meets the limits on the number of mandates set out in section 3.3 below.

No board member appointed by the Canton or municipalities:

- receives any instructions from their appointing body regarding their activity as a member of the Board of Directors.
- belongs to the cantonal government or administration, or to that of another municipality, or to another cantonal or municipal public-sector entity, with the exception of a director who is mayor of a municipality with fewer than 1,800 inhabitants.

Manuel Leuthold
Chair
Born on 21 December 1959
Swiss citizen
Appointed by the State Council of Geneva Canton in 2021.

Manuel Leuthold has been Chair of the Board of Directors of compenswiss, the Swiss Federal Social Security Funds for OASI/Invl/LEC Geneva, since January 2016, and is also a member of the boards of directors of several Swiss companies. He has extensive experience in the banking sector. He has spent over 30 years in various groups, where he has held senior positions in trade and institutional customer management, as well as in commodities trade finance. He holds a Master's in Law and a Master's in Economics from the University of Geneva.

Jean Olivier Kerr
Vice Chair
Born on 19 June 1956
Swiss citizen
Elected in 2017 by the general meeting of shareholders, representing shareholders other than the public authorities.
Chair of the Appointments and Remuneration Committee.

Jean-Olivier Kerr holds postgraduate degrees from the Institute of International Food Industry Management (IGIA) and the Institute for Advanced Studies in Rural Law and Agricultural Economics (IHEDREA), Paris. His expertise includes risk management, strategy analysis and execution, and organisational change management and leadership. He joined Cargill as a trader in 1980 and subsequently occupied various positions in Paris, Amsterdam, Milan, Geneva and Minneapolis. He was appointed Director at Cargill Europe, Geneva (1999–2007), then Vice Chair at Cargill International, Geneva (2008–2014).

Serge Fasel

Secretary
Born on 28 January 1957
Swiss citizen
Appointed in 2018 by the Executive Council of the City of Geneva.
Member of the Appointments and Remuneration Committee.

Serge Fasel holds a Bachelor's in Law from the University of Fribourg and is a member of the Geneva Bar. He is a partner at FBT Attorneys-at-Law, Geneva, and has headed its Litigation and Arbitration group since 1993. He has extensive experience both in Swiss and international court litigation and arbitration. He specialises in all types of commercial disputes, particularly in the banking and financial sector. He also has expertise in the fields of insolvency law, employment law and economic crime. Serge Fasel is a deputy judge with the Geneva Appeal Court and has training in military justice.

Jean-Philippe Bernard

Born on 16 June 1958
Dual Swiss/French citizen
Member, elected in 2021 by the general meeting of shareholders, representing shareholders other than the public authorities.
Chair of the Risk and Strategy Committee.

Jean-Philippe Bernard holds a civil engineering degree from EPFL – Swiss Federal Technology Institute of Lausanne. He has in-depth expertise in the areas of risk management, control systems, strategy, organisation and security. He has held upper management positions, including at the headquarters of a private asset management company, where he oversaw internal control systems and risk management. For several years, he has been teaching risk management, target operating models and internal control systems. In addition, he runs the risk management certification programme for directors and trains banking governance bodies on applying Swiss regulatory requirements, particularly in relation to FINMA Circular 2017/01 on risk governance. He has been actively involved in various consulting companies specialising in risk management and banking control systems. In 1999, he founded BERYL Management Sàrl, which he managed as its owner and appointed director until its handover in 2013, then as its CEO until 2019. Since 2020, he has worked as an independent consultant for strategic, high value-added projects.

Fabienne Bertolucci

Born on 14 April 1967
French citizen
Member, appointed in 2022 by the State Council of Geneva Canton.
Interim Chair of the Audit Committee from 30 January 2025 to 21 May 2025.
Chair of the Audit Committee since 22 May 2025.

Fabienne Bertolucci founded Orphée Consulting in 2015. She has extensive experience in financial control, which she acquired while working for various companies. She also managed the family firm JFG from 1986 to 1996. She has a Master's in Finance and Management from HEC Geneva and a Master's degree from the Institute of Business Law (IDA) from Aix-Marseille University. She holds a diploma in the valuation of companies and financial assets from Paris-Sorbonne Business School.

Melina Dimitrakakis

Born on 4 August 1977
Swiss citizen
Member, appointed in 2024 by the State Council of Geneva Canton.
Member of the Audit Committee.

Melina Dimitrakakis holds a Master's in Law and a certificate in compliance management from the University of Geneva. She has extensive knowledge in the field of compliance, having begun her career in 2003 as a compliance officer with Union Bancaire Privée. Between 2007 and 2018, she worked as Compliance Manager and Chief Compliance Officer for the Pictet Group. In 2018, she founded Swiss Compliance Services M. Dimitrakakis.

Sophie Dubuis

Born on 25 September 1974
Swiss citizen
Member, appointed in 2020 by the Executive Council of the City of Geneva.
Member of the Appointments and Remuneration Committee.

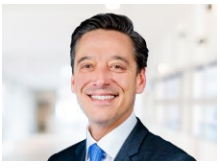

Sophie Dubuis has a degree in tourism management from HES-SO Valais and trained in employee leadership with the Centre Romand de Promotion du Management (CRPM) Swiss Board School. She received executive board training with the Swiss Board Institute, an Executive MBA in project management from the University of Geneva, and is also a certified coach. She is the founder and managing partner of Sow Consulting sàrl and Vice Chair of the Swiss Employers' Association (Union patronale Suisse). Sophie Dubuis has held management positions at Bucherer SA, Geneva International Conference Centre (CICG), Palexpo and Forum Fribourg, and has also served as Chair of the Geneva Tourism and Conventions Foundation. Since 1 July 2024, she has been Chair of the Migros Geneva Board of Directors.

Bernard Girod

Born on 5 February 1956
Swiss citizen
Member, appointed in 2018 by the State Council of Geneva Canton.
Member of the Risk and Strategy Committee.

Bernard Girod holds a diploma as a mechanical technician and has enjoyed a long career as an entrepreneur. He is chair of the boards of Serbeco, Satigny and ED Energie Durable and Director of ProP SA, Satigny. He is also a member of several boards of directors, including Autobritt Automobiles, Geneva, and Chair of CAD Energie 1 SA, Confignon, and Mobilitri SA, Satigny.

Vincent Mottet

Born on 17 December 1972
Swiss citizen
Member, appointed in 2022 by the Association of Geneva Municipalities.
Member of the Risk and Strategy Committee.

Vincent Mottet has been head of strategic affairs for the Cantonal Office for Information Systems and Digital Technology (OCSIN) of the State of Geneva since 2019. He has over 20 years of experience in public finance in various positions in infrastructure, land management and education departments. He holds a Master's in political science from the University of Geneva, a Masters of Business Administration from the Geneva School of Economics and Management and a doctoral degree in business administration from the University of Lyon 3.

Sandrine Salerno

Born on 20 August 1971
Swiss/French/Italian citizen
Member, appointed in 2022 by the State Council of Geneva Canton.
Member of the Risk and Strategy Committee.

Sandrine Salerno was Managing Director of Sustainable Finance Geneva (SFG) between 2021 and 2023. Prior to that she served on the Executive Council of the City of Geneva between 2007 and 2020 as Head of the Department of Finance and Housing. She holds a Master's in Political Science from the University of Geneva and a Certificate of Advanced Studies in public administration management. During this period, she headed the Department of Finance and Housing.

New board member, from 29 April 2025 (at the general meeting of shareholders)

Simona Terranova

Born on 8 September 1973
Dual Swiss/Italian citizen
Member, elected on 29 April 2025 by the general meeting of shareholders.
Member of the Audit Committee since 22 May 2025.

Simona Terranova is a founding partner of MT Finance (Suisse) SA, a consulting firm specialising in finance, risk management and compliance for bodies supervised by the Swiss Financial Market Supervisory Authority (FINMA). She has over 20 years' experience in leading financial auditing and consulting firms. She is a non-executive member of the boards of directors of several companies in the financial sector such as wealth managers, SICAVs, institutional asset managers and insurance companies.

Board member until 29 April 2025 (term of office ended at general meeting of shareholders)

Michèle Costafrolaz

Born on 2 August 1954
French citizen
Member, elected in 2017 by the general meeting of shareholders, representing shareholders other than the public authorities.
Chair of the Audit Committee until 30 January 2025.
Member of the Audit Committee until 29 April 2025.

Michèle Costafrolaz graduated from the Lyon School of Management in Finance and Accounting and has extensive expertise in financial auditing and business consultancy in accounting and finance. She started her career in external auditing with Deloitte Haskins & Sells in Paris in 1977, holding several management positions within the company before becoming a senior audit partner at Deloitte SA, Geneva (1984–2013). She is an accredited senior auditor with the Federal Audit Oversight Authority, and since 2013, she has been a founding shareholder and board member of MCT Audit and Advisory, Geneva. She was Chair of the Audit Committee of the Global Alliance for Improved Nutrition from 2015 to 2018, a member of the Supervisory Board of Ermewa Holding SA, France, from 2014 to 2021 and Chair of the Audit Committee from 2018 until 31 October 2021. Since June 2023 she has also been a member of the Board of Directors of the Foundation for Innovative New Diagnostics (FIND), Geneva.

Chair of the Board of Directors of ID Logistics SA, Geneva
Member of the Board of Directors of Helvetia Conseils and Révisions SA, Geneva
Manager of Mesoblast International Sàrl, Meyrin

3.3 Number of functions accepted

On 29 April 2025, the general meeting of shareholders approved the amendment of the Bank's Articles of Association. The amended Articles of Association provide that no member of the Board of Directors may hold more than nine additional appointments in companies pursuing an economic objective, of which no more than four may be in listed companies. Each of these mandates must be approved by the Board of Directors.

In this context, "mandates" are understood to be the mandates of members of the board of directors or management, or similar positions, within other companies pursuing an economic objective. Mandates in several legal entities under joint control, for example within a group of companies, are counted as a single mandate. No member of the Board of Directors may hold more than ten such mandates per group of companies.

However, the above limits do not apply to the following mandates

- Mandates in companies under the control of the Bank
- Mandates exercised by a Board member at the request of the Bank or at the request of companies under its control; no Board member may hold more than five such mandates. No Board member may hold more than five such mandates.
- Mandates held in associations, charities, foundations, trusts and employee pension funds; no Board member may hold more than five such mandates. Board members may not perform any other activities within the Bank.

In addition, the Articles of Association provide for the following limits to the functions that may be performed by Board members:

- Board members may not perform any other activities within the Bank.
- Board members may not hold a full-time position in a cantonal or municipal executive body; they may not belong to the management, operational management or auditing body of another bank. They may, however, be a board member of another bank provided that the geographic and industrial scopes of activity of this other mandate are not in direct competition with the Bank and that they remain sufficiently available to carry out their mandate with the Bank.

3.4 Election and duration of mandates

The 11 directors are elected or appointed as follows:

- Five members appointed by the State Council of Geneva Canton
- Two members appointed by the City of Geneva;
- One member appointed by the other Geneva municipalities;
- Three members individually elected by the general meeting of shareholders; the public authorities do not have the right to take part in these elections and exercise the voting rights attached to the shares they are required to hold pursuant to the LBCGe and the Articles of Association.

Directors are appointed for a term of four years. Members may be appointed for a maximum of 12 years. If they take up their duties partway through a term of office, the period still counts as full four-year term.

The mandate ends no later than on the day of the general meeting of shareholders following the date on which a director turns 73 years of age. The procedures for appointing and proposing candidates are governed by Article 12A and Article 13 LBCGe[1] and Article 10 paragraph 2 of the Bank's Articles of Association[2].

Director's name	Date of birth	Start of first appointment	End of current appointment	Maximum possible duration of appointment (12 years or age limit of 73)	Appointment renewable in 2026
Manuel Leuthold	21 December 1959	2021	2026	2033 (age limit)	Yes
Jean Olivier Kerr	19 June 1956	2017	2026	End of appointment on 28 April 2026	
Serge Fasel	28 January 1957	2018	2026	2030 (age limit)	Yes
Jean-Philippe Bernard	16 June 1958	2021	2026	2032 (age limit)	Yes
Fabienne Bertolucci	14 April 1967	2022	2026	2034	Yes
Melina Dimitrakakis	4 August 1977	2024	2026	2036	Yes
Sophie Dubuis	25 September 1974	2020	2026	2032	Yes
Bernard Girod	5 February 1956	2018	2026	2029 (age limit)	Yes
Vincent Mottet	17 December 1972	2022	2026	2034	Yes
Sandrine Salerno	20 August 1971	2022	2026	2034	Yes
Simona Terranova[3]	8 September 1973	2025	2026	2037	Yes
Michèle Costafrolaz[4]	2 August 1954	2017	2025	General meeting of shareholders 29.04.2025	No

1 ge.ch > section "Législation genevoise" (Geneva legislation).
2 bcge.ch – About BCGE > Organisation > Regulatory framework.
3 Member of the Board of Directors since 29 April 2025 – general meeting of shareholders.
4 Appointment expires at the general meeting of shareholders on 29 April 2025.

3.5 Internal organisation

3.5.1 Allocation of tasks within the Board of Directors

Chair: Manuel Leuthold

Vice Chair: Jean Olivier Kerr

Secretary: Serge Fasel

3.5.2 Committees of the Board of Directors

Appointments and Compensation Committee

The main role of the Appointments and Compensation Committee is to recommend the appointment of the Chair, Vice Chair and members of the Executive Board and to make recommendations for the appointment of senior managers.

It also makes recommendations for the compensation of the Head of Internal Auditing, based on the proposal made by the Audit Committee, and proposes amendments to the Regulations on the compensation of the Board members and the compensation of the Executive Board.

It is composed of three Board members: Jean Olivier Kerr (Chair), Serge Fasel and Sophie Dubuis.

It meets whenever there is an appointment, but at least once a year to determine compensation under its mandate. In 2025, it met seven times (and in 2024, it met six times).

Risk and Strategy Committee

The Risk and Strategy Committee assesses the risk environment in which the Bank operates or intends to operate, using a forward-looking approach. It makes recommendations to the Board of Directors on any major decisions that are of a strategic nature or relate to identifying and managing risks.

It is composed of four Board members: Jean-Philippe Bernard (Chair), Bernard Girod, Vincent Mottet and Sandrine Salerno.

In 2025, it met eight times (in 2024, it also met eight times).

Audit Committee (formerly the Control Committee; see the amendment of the Articles of Association dated 29 April 2025)

The competences and duties of the Audit Committee are set out in Article 14A LBCGe (Articles 24 et seq. of the former Articles of Association). Its functions include ensuring compliance with the legal, statutory and regulatory provisions applicable to the Bank, and with customary banking practice, and overseeing communication and coordination between the Board of Directors, Internal Audit and the independent auditor.

Until 29 April 2025, the Audit Committee was composed of:

- three directors appointed by the Board of Directors: Michèle Costafrolaz, Fabienne Bertolucci and Mélina Dimitrakakis
- one member appointed by the State Council Simona Terranova. She was appointed by the State Council of Geneva Canton on 1 December 2023 and was a member of the Audit Committee from that date until 29 April 2025.

However, the appointment of a member of the Audit Committee by the State Council was not maintained in the amendment to the LBCGe that entered into force on 1 September 2025.

From 29 April 2025 the Audit Committee was composed of:

- three directors appointed by the Board of Directors: Fabienne Bertolucci (Chair), Mélina Dimitrakakis and Simona Terranova.

Following the departure of Michèle Costafrolaz, Simona Terranova was appointed by the State Council of Geneva Canton on 1 December 2023 and was a member of the Audit Committee until 29 April 2025. On 29 April 2025, she was subsequently appointed by the general meeting of shareholders as a Board member representing shareholders other than the public authorities.

The Audit Committee meets as often as business requires, but at least as often as the Board of Directors. In 2025, it held 25 regular meetings (and in 2024, it held 26).

3.5.3 Working methods

- The Board of Directors meets as often as business requires, but at least ten times a year (Article 19, paragraph 1 of the Bank's Articles of Association). In 2025, it met 15 times, with meetings lasting an average of five hours. The attendance rate of these meetings was 96.4%. It is chaired by the Chair of the Board of Directors or, in their absence, by the Vice Chair or Secretary. It may hold extraordinary meetings if necessary for business purposes or if a meeting is requested by four of its members or by the independent auditor.
- Decisions by the Board of Directors require the presence of the majority of its members. Decisions are made by simple majority of the members present; in the event of a tie, the Chair casts the deciding vote.
- Minutes of each meeting are taken, then approved at the next meeting and signed by the Chair of the meeting and the Secretary. Board members must be able to consult any files relating to the items placed on the agenda at least twenty-four hours before the start of the meeting.
- The CEO, or his deputy takes part in the meetings of the Board of Directors in an advisory capacity but does not participate in any votes or elections.
- The Chair may require the attendance of other Board members or third parties when deemed necessary. In 2025, this was the case at every meeting of the Board of Directors.
- If a conflict of interest arises, Board members must recuse themselves if they are directly or indirectly involved in the matter. The Secretary is responsible for providing notice of any such potential conflict of interest when addressing the agenda item in question.
- In addition to the Audit Committee (formerly known as the Control Committee) and the Appointments and Compensation Committee, the Board of Directors may form standing or ad hoc committees to examine the various activities conducted by the Bank. These committees have no decision-making authority and are required to report to the Board of Directors. The Chair of the Board of Directors may attend any Committee meetings. In 2025, the Board formed one Standing Committee in addition to the Audit Committee and the Appointments and Compensation Committee: the Risk and Strategy Committee.
- To keep up with the increasing complexity of tasks, Board members receive regular training organised by the Bank. All members are able to submit requests for specific training to the Chair, who has a budget for this purpose.

3.6 Powers of the Board of Directors and the Executive Board

The competences and duties of the Board of Directors are defined in Article 17 of the Bank's Articles of Association and in Article 12 of the LBCGe. Article 7 of the Bank's management and organisational regulations additionally stipulates that the Board of Directors shall decide on:

1. strategic and financial plans and, when proposed by the Executive Board and notified by the Risk and Strategy Committee, the risk management framework. The Board of Directors is responsible for implementing and monitoring effective risk management and steering the Bank's overall risk portfolio.
2. an organisational structure aligned with the Bank's needs.
3. an annual budget put forward by the Executive Board.
4. approval, further to a proposal of the Audit Committee, of a three-year plan of the tasks to be perfomed by Internal Audit to ensure all necessary oversight.
5. an overall framework for limiting risk;
6. allocation of key credit risk parameters, as well as granting of loans within its mandate.
7. risk-related policies, particularly in relation to credit risks, interest rate risks, country risks and insurance risks (based on a proposal by the Executive Board). The Board of Directors reviews these policies as required.
8. information required in the area of risk management.
9. the strategic framework governing the Executive Board's role in setting lending rates and savings deposit rates.
10. the strategic framework governing the Executive Board's role in relation to cash management, foreign exchange transactions, securities investments and holdings, and other stocks.
11. the Bank's policy regarding the property portfolio.
12. approval of any permanent acquisition or disposal of investments.
13. acquisition and disposal of any capital goods used by the Bank, investments held as financial fixed assets, and properties, unless the Executive Board's powers under Article 24 (3) of these regulations stipulate otherwise.
14. write-off of receivables, compliance with out-of-court settlements, subordinations or transfers of receivables if the amount is higher than CHF 2,000,000 or the commitments were the subject of a decision by the Board of Directors.
15. the appointment of two directors from within its ranks as members of the Control Committee and appointment of its Chair.
16. the appointment of members of the Executive Board.
17. the appointment of the Chief Risk Officer.
18. the appointment of senior managers and their deputies.
19. policies relating to employees, remuneration and social security.

20. fixed and variable compensation for the members of the Executive Board and of the Head of Internal Audit and other Internal Audit employees.
21. blackout periods for buying and selling shares in the Bank or other sensitive stocks for employees and executive bodies during close periods.
22. adoption of proposals to appoint representatives of the Bank as directors of companies included in the scope of consolidation.
23. the appointment of employer representatives to the board of the employee pension fund, following proposals put forward by the Executive Board.

The powers and responsibilities of the Executive Board are defined in Article 27 of the Bank's Articles of Association. The management and organisational regulations also assign the Executive Board the following tasks:

1. preparing and submitting the Bank's strategic and financial planning and the risk management framework to the Board of Directors.
2. drawing up the necessary documents and proposals to assist the Bank's senior management in making decisions.
3. preparing and submitting the annual budget to the Board of Directors.
4. ensuring that the Bank's structures and organisation comply with legal requirements and best practice for the profession.
5. ensuring that the Bank is adequately and appropriately represented in economic circles.
6. overseeing that decisions by the Bank's senior management are implemented as intended.
7. submitting proposals to be adopted for the appointment of representatives of the Bank as directors of companies included in the scope of consolidation.
8. appointing representatives of the Bank as directors of companies included in the scope of consolidation.

The management and organisational regulations state that, in addition to the powers expressly attributed to it by the law and the Articles of Association, the Executive Board shall decide on:

1. setting interest rates within the strategic framework provided by the Board of Directors.
2. loans, short-term investments, foreign-exchange operations and securities investments in accordance with the guidelines issued by the Board of Directors.
3. the acquisition and disposal of any capital goods used by the Bank, investments held as financial fixed assets, and properties not intended for use by the Bank, provided the amount does not exceed CHF 5,000,000. This ceiling does not apply to marketable securities which are authorised for the general purpose of limiting risk.
4. the maintenance and renovation of real estate up to an amount of CHF 3,000,000 per property.
5. the appointment of proxies and holders of commercial power of attorney.
6. compensation for all Bank employees, with the exception of the compensation of the members of the Executive Board and employees of Internal Audit.
7. internal directives on Bank operations to the extent that these are not governed by law, the Articles of Association or these regulations.
8. monitoring compliance with regulations on liquidity, shareholders' equity and risk diversification.
9. the provisions needed to apply the risk management policy and submitting a proposal to the Board of Directors for approval.
10. the system governing overall limits to the Board of Directors and shall submit it for approval, in particular in relation to market operation limits, bank limits and country limits.
11. regularly submitting reports to the Board of Directors on business development (financial statements, analyses, major transactions and events, etc.) and on any other topics that may be requested by the Board.
12. preparing a quarterly list of all the major risk exposures as defined by the Swiss Federal Ordinance on the Capital Adequacy and Risk Diversification of Banks and Securities Firms to the attention of Board of Directors.

The Executive Board may delegate certain tasks to various internal committees and particular commissions.

3.7 Information and control mechanisms

- The Board of Directors periodically evaluates the applicable information channels, the content they provide and their suitability for its needs, as well as the internal control system. It evaluates how effective this is and whether it is appropriate for the Bank's operations and size. It establishes an information network among the Bank's bodies.
- At each meeting, the Executive Board informs the Board of Directors about the Bank's performance and the general business environment, and reports on issues requiring its attention.
- The Chair of the Board of Directors, the Executive Board, Internal Audit and the independent auditor must provide the Board of Directors with all the information it needs to exercise its supervisory function, in particular with regard to business development and recent activities in the various sectors, including its subsidiaries.

This is done in various ways, including:

- weekly minutes of the meetings of the Executive Board, which are submitted to the Chair of the Board of Directors;
- a summary of the Bank's performance and the general business environment by the Chair of the Executive Board at each meeting of the Board of Directors;
- quarterly risk reports by the Chief Risk Officer (CRO);
- quarterly financial reports by the Chief Financial Officer (CFO);
- reports on control activities carried out within the Group by the Head of the Audit Committee and half-yearly updates on the recommendations made by Internal Audit and the independent auditor;
- oral reports on the work done by the Audit Committee at each meeting by its Chair; half-yearly reports by the independent auditor.

Internal Audit

Monique Seiss Baudry
Head of Internal Audit.
Reports to the Board of Directors.

Internal Audit has nine staff members as at 31 December 2025 and is headed by Monique Seiss Baudry. She holds a Master's in Economics from the University of Geneva, a Certificate of Advanced Studies (CAS) in Compliance Management, a Certified Internal Auditor (CIA) diploma, Certification in Risk Management Assurance (CRMA) from the Institute of Internal Auditors (IIA), an Asset Liability Management (ALM) certificate from the Group of National Schools of Economics and Statistics (GENES), Paris, and a Higher Institute for Banking Training (ISFB) Sustainable Finance Certificate.

Internal Audit is an independent entity within the Executive Board, reporting directly to the Board of Directors. It conducts regular audits of all the Bank's activities and those of its subsidiaries; in this capacity, it has unrestricted access to information. When assessing processes relating to risk management, control and governance, it provides the Board of Directors and Executive Board with the guarantee that the internal control system is working effectively and makes suggestions for improvement where necessary

Its organisation, its field of activity and its operations are governed by Article 16A LBCGe, Articles 29 and 30 of the Articles of Association, Articles 28 to 31 of the management and organisational regulations, as well as by the Internal Audit Charter approved by the Board of Directors.

Each year, the Head of Internal Audit draws up a three-year audit plan on the basis of a risk assessment outlining its audit missions moving forward. This plan is aligned with the one put forward by the independent auditor, then its contents are discussed by the Audit Committee, which issues a recommendation before it is approved by the Board of Directors. This plan may be amended during the course of the year with the agreement of the Audit Committee, where necessary, in line with any changes to the organisation, its activities or the general risk environment.

Based on this audit plan and any follow-up work, Internal Audit provides the Executive Board, the Audit Committee and the Board of Directors with detailed reports on its audits, accompanied by half-yearly progress reports on implementing the recommendations made, as well as an annual report on its activities. All these documents are sent to the independent auditor.

The Audit Committee is responsible for the supervision and periodic assessment of Internal Audit. This includes an annual evaluation of the work done by Internal Audit to ensure that it has the necessary resources and appropriate expertise and that it is performing its duties independently and objectively.

Internal Audit must meet the quality required by supervisory authorities and professional associations. To this end, the Board of Directors commissions an external assessment of Internal Audit every five years, in addition to annual assessments by the independent auditor. The audit firms authorised by FINMA and mandated to carry out these assessments confirmed to the Bank's governing bodies that Internal Audit conducts its activities in compliance with the standards of the Institute of Internal Auditors (IIA) and best practices.

As a group, the members of Internal Audit have extensive professional experience and all the requisite skills to properly carry out their audit assignments. They all hold the specialist qualifications and certifications needed to conduct the duties of their profession (Master's degree in economics or equivalent, Executive MBA or doctoral degree in finance, Global Internal Audit Certification or Certification in Risk Management Assurance (CRMA) from the Institute of Internal Auditors (IIA), in addition to expertise in accounting, IT audits, compliance and sustainable finance).

Internal Audit is composed of three divisions consisting of auditors with expertise in the Bank's main business lines, functions and areas of activity, specifically: lending and trade finance, wealth management, asset management, trading floor and compliance, as well as accounting and management control, IT and cyber risks.

3.8 Gender representation threshold

The Board of Directors has 11 members, five of whom are women. Women therefore account for 45% of Board and men for 55%.

4. Executive Board[1]

4.1 Members

As at 31 December 2025, the Executive Board consists of seven members and is chaired by Nicolas Krügel. The executive board is appointed for an unlimited term. The maximum notice period for fixed-term contracts with its members must not exceed one year. Any fixed term contracts for Executive Board members shall not exceed one year.

No member of the Executive Board:

- works in a permanent management or consultancy capacity for major Swiss or foreign interest groups.
- holds an official position or a political mandate.

Nicolas Krügel
Chief Executive Officer (CEO)
Born on 19 August 1972
Swiss citizen

Nicolas Krügel holds a Master of Science from the University of Neuchâtel and completed his studies with an Executive Program at Stanford University. He spent the first 27 years of his career with the Credit Suisse Group, where, from 2018, he served as Chief Credit Officer for the Swiss Division. His extensive experience in all facets of a universal bank gained through assignments in French-speaking Switzerland, Zurich, California and New York, coupled with specialist expertise and strong leadership skills have proven a great asset in a demanding Swiss and global professional environment. Nicolas Krügel was previously director and chair of the risk committee of BANK-now, a subsidiary of the Credit Suisse Group specialising in consumer financing. He chaired the Board on an interim basis until 20 November 2023. He has been CEO of BCGE since 6 March 2024.

Frédéric Vernet
Chief Financial Officer (CFO)
Chief Risk Officer (CRO)
Born on 25 June 1974
Dual Swiss/French citizen
Deputy CEO.

Frédéric Vernet is a trained IT and robotics engineer with an MBA from IAE Paris – Sorbonne Business School and a degree in civil engineering from the University of Lyon. He started his career in 1999 as a project engineer with Capgemini Ernst & Young before joining BCGE in 2003 as the lead on the "crédit+" project, where he was instrumental in implementing a new front-to-back lending process. For two years from 2006, he managed the Network Management and Business Development Department in the Retail and Networks Division. In 2007, he created the Management Information System function within the Finance and Risk Management Division, where he developed the Bank's analytical reporting model. From 2012 to 2020, he headed the Management Control Department, where he implemented the Strategic and Financial Plan and continued his work on the Management Information System. He was appointed to the Executive Board and became head of the Finance Division in January 2021. He is also BCGE's Chief Risk Officer since 1 March 2021.

[1] See operating structure as at 1 March 2026 on page 12.

Katia Coudray

Born on 26 September 1969
Swiss citizen
Head of the Wealth and Asset Management Division.

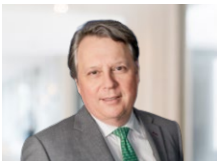

Katia Coudray holds a Bachelor's degree in business economics from HES-SO Valais, and is also a Certified International Investment Analyst and a graduate of the Advanced Management Program at the International Institute for Management Development in Lausanne. She is certified as a director by the Swiss Board Institute. She began her career at Credit Suisse in Zurich in the capital markets and institutional management divisions. She then held various positions at Pictet and EFG (formerly Banque Edouard Constant) as a private equity specialist and manager of thematic equity investment funds. In 2001, after joining Union Bancaire Privée, she developed the multi-management and emerging market investment departments, along with the entity in charge of developing financial products for private banking and asset management. In 2009, she expanded the private banking advisory department alongside her other activities. She became a member of the Executive Board of the Union Bancaire Privée and the AM Executive Committee in 2005, before joining the Syz Group in 2011 as head of products and investments. Two years later, she was appointed CEO of Syz Asset Management, the group's institutional investment subsidiary, leading a team of more than 130 people and overseeing nine foreign subsidiaries. In 2019, she moved on to a career as an independent director, serving on the audit and compensation committees of major financial institutions such as GAM Holding and Banque CA Indosuez (Switzerland) SA. At the same time, she established a management company specialising in sustainable investing. In September 2024, she stepped down from her mandates and joined BCGE as a member of the Executive Board as Head of the Wealth and Asset Management Division.

Pierrette Jaton Klopfenstein

Born on 24 April 1970
Swiss citizen
Head of the Private Clients and **Online Banking Division.**

Pierrette Jaton Klopfenstein holds a Bachelor's degree from HEC of the University of Lausanne, a Swiss federal marketing technician diploma, SAQ individual client adviser certification and an advanced management diploma from the University of St Gallen Executive School (ES-HSG). She began her career in pensions at Swiss Life and marketing at Banque Cantonale Vaudoise. She joined BCGE in 2003 as a product manager, before taking over as head of business development. She subsequently held other senior management roles: Head of Marketing (2007–2011), Chief of Staff of the Executive Board (2011–2012), Head of Logistics (2012–2013) and Head of the Centre Sector of the Geneva Division. She was appointed to the Executive Board as Head of the Geneva Division on 1 April 2018. On 1 September 2024, she became head of the new Private Clients and Online Banking Division.

Jean-Marc Joris
Born on 10 September 1968
Dual Swiss/Belgian citizen
Head of the Operations Division.

Jean-Marc Joris holds a Master in management and financial sciences from ICHEC – Brussels Management School. In 1993, he worked in the capital markets department at Dexia Luxembourg. From September 1993 to June 1997, he was the project manager for the information risk management department of KPMG, before joining ING Baring Private Bank in Geneva as head of business development in 1997. He came to BCGE in April 2002 as Head of the Organisation Department and interim Head of the IT Department. Since 1 July 2003, he has been a member of the Executive Board and Head of BCGE's Operations Division. Since 2025, he has also been a member of the Board of Directors of banking software specialist, Finnova AG, Lenzburg.

Philippe Marti
Born on 7 April 1962
Dual Swiss/French citizen
Head of the Legal and Compliance Division.

Philippe Marti has a Bachelor in Law from the University of Geneva and is a member of the Geneva Bar. He joined UBS' legal department in 1987, before moving to Banque Populaire Suisse in Geneva (which later became part of Credit Suisse) in 1995 as head of its legal department, then from 1997 to 2003 as administrative director of the legal department for French-speaking Switzerland for private banking and retail clients, and finally as a member of its governing bodies. In 2004, he joined BNP Paribas Private Bank (Switzerland) SA as deputy head of the private banking legal department and as a member of executive management. In 2007, he joined Crédit Agricole (Switzerland) SA as head of legal services in the private banking Division. At the beginning of 2010, he joined the BCGE Group as Head of the Legal Department (CEO Office). In 2015, he was appointed Head of the Legal and Claims Business Unit. Since 1 January 2020, he has headed the Legal, Compliance and Claims Business Unit, which is part of the Finance Division. In January 2022, he was appointed to the Executive Board with responsibility for the Legal and Compliance Division.

Interim Head of the Corporate Banking and Trade Finance Division from 1 March 2025 to 31 August 2025

Nicolas Demierre
Born on 30 October 1969
Dual Swiss/French citizen
Interim Head of the Corporate Banking and Trade Finance Division.

With a degree in international relations from the University of Geneva, Nicolas Demierre began his career in commercial and mortgage lending at UBS. He then moved to the BNP (Suisse) SA Group, where he worked in international trade finance. He joined BCGE in 1999. He was in charge of the commodity trading client segment and in 2010, he became head of the departments dedicated to transactional and structured financing, before taking over the Global Commodity Finance Business Unit in 2016. He was appointed interim Head of the Corporate Banking and Trade Finance Division from 1 March 2025 until 31 August 2025. Since 1 September 2025, he has headed the International Corporate Business Unit (formerly Global Commodity Finance).

New member of the Executive Board, effective 1 September 2025

Eric Balmer

Born on 11 September 1972
Swiss citizen
Head of the Corporate Banking and Trade Finance Division.

With a Master's in Law from the University of Fribourg and a PhD in Law from the University of Lausanne, Eric Balmer has extensive experience in corporate banking. Over his career, he has advised an extremely broad client base ranging from SMEs to large Swiss corporations with global reach. He managed various Credit Suisse entities in Lausanne, Zurich and New York before becoming Chief Executive and Managing Director of Global Supply Chain Finance in Zug. On 1 September 2025, he was appointed to the Executive Board responsible for the Corporate Banking and Trade Finance Division.

Member of the Executive Board until 28 February 2025 (resigned)

Yves Spörri

Born on 17 September 1968
Swiss citizen
Head of the Corporate Banking and Trade Finance Division.

Yves Spörri holds a degree in agricultural engineering from the Swiss Federal Institute of Technology, Zurich (ETH). From 1994 to 2001, he held a wide range of positions in the correspondent banking department of Bank Kreiss AG in Frankfurt. He joined the Banking Relationships section of BCGE as a manager in 2001 and was appointed to the Executive Board in 2004. He became Head of the Financial Institutions and Public Authorities Department in 2007, then Head of the Banks and International Institutions Business Unit in 2011. In July 2016, he took over the Banks and Insurance Companies Business Unit and the Multinationals and International Institutions Department. In January 2017, he was appointed to the Executive Board as Head of the Corporate and Institutional Clients Division. In January 2020, he became Head of the International Division. On 1 September 2024, he took over the new Corporate Banking and Trade Finance Division until his departure on 28 February 2025.

Member of the boards of directors of:
- BCGE (Asia) Company Ltd., Hong Kong until 28 February 2025
- Capital Transmission SA, Geneva, until 28 February 2025.

4.3 Limits on mandates

In accordance with Article 26, "Duties and other appointments", of the Bank's Articles of Association of 29 April 2025, the members of the Executive Board must devote all of their time to the Bank. However, with the express consent of the Board of Directors, they may accept external mandates or functions, provided that these support the interests of the Bank.

No member of the Executive Board may hold more than four mandates and functions on boards of directors, of which no more than two may be in listed companies. The concept of "mandates" is defined in section 3.3 of this report. Each of these mandates must be approved by the Board of Directors.

However, the above limits do not apply to the following mandates:

- mandates in companies under the control of the Bank.
- mandates held by a member of the Executive Board at the request of the Bank or at the request of a company under its control. No member of the Executive Board may hold more than five such appointments.
- mandates held in associations, charities, foundations, trusts and employee pension funds. No member of the Executive Board may hold more than five such mandates.

4.4 Management contracts

The Bank has not entered into any management contracts.

4.5 Gender representation threshold

The Executive Board has seven members, two of whom are women. Women therefore account for 29% of the Executive Board and men for 71%.

5. Compensation, shares and loans

Complete information on the compensation, shares and loans granted to members of the BCGE Board of Directors and Executive Board, as well as to their families, can be found in the Remuneration Report within this report.

We strive to fulfil the dreams of others.

We are here to offer high-quality financial services to our clients, Geneva and the entire region at every step of their journey while deploying responsible management practices.

Each day, we are driven by our three key values: authenticity, courage and fairness.

Remuneration policy

The regulations relating to employee remuneration fall under the authority of the Board of Directors. The regulations applicable to the period under review were approved by the Board on 11 November 2015 and last amended on 25 September 2025.

Employee remuneration includes fixed remuneration, variable remuneration (which is not systematically granted) and share-ownership plans. Fixed remuneration accounts for a major share of employee remuneration. It is assessed on the basis of various criteria including benchmarking, market demand and competition. Each year, the Board of Directors decides on any changes to fixed pay.

The overall amount of variable remuneration is decided each year by the Board of Directors when year-end accounts are finalised. It includes individual variable remuneration and, potentially, also an additional discretionary bonus if the results for the current year have improved markedly compared with the previous three years.

Employees may receive a portion of variable pay as shares, up to 50% in the case of additional discretionary bonuses. These shares are subject to a lock-up period of five to ten years, depending on what the employee chooses.

For some of our front office roles – including Wealth Management, Trade Finance, lending and retail banking – variable pay is determined by remuneration models that are partially or fully based on quantitative performance metrics. The models were developed on the basis of the following main parameters:

- protection of clients' interests
- recognition of individual or collective performance
- no incentive is provided to take excessive risks
- administrative rigour and alignment between variable remuneration and the Bank's revenues.

The pay of employees in audit functions does not directly depend on the business performance of the entities they audit.

No external consultants were engaged in the implementation of the remuneration policies for the reporting year.

Share-ownership plans

All the Bank's employees can choose from several share-ownership plans that enable them to align their personal financial interests with those of the Bank. Under these plans, BCGE shares are either granted free of charge or subject to conditions, with a lock-up period of five to ten years, as chosen by the employee for certain plans. If a share-ownership plan requires the employee to purchase shares, the purchased shares are subject to the same lock-up period as the shares received free of charge.

The table on the following page and in section 4.22 of the parent company financial statements explain the lock-up periods applicable to Bank shares acquired by parent company employees (through share-ownership plans) and the associated tax conditions.

Employees benefit from various preferential conditions for a number of BCGE products and services, where the Bank earns no margin or only a small margin. Preferential conditions are set out in the Employee Regulations; beyond these provisions, the terms and conditions for regular clients also apply.

Details of these plans are provided in the share-ownership plan regulations; any amendments must be submitted to the Board of Directors.

Between 2024 and 2025, total gross remuneration (fixed plus variable pay) for all employees increased by 2.83%, with average headcount growing by 1.38%. Average pay by FTE rose by 1.44%.

This increase is solidly in line with BCGE's business strategy and reflects the Bank's efforts to strike a balance between attractive employment conditions and disciplined payroll management.

Plan	Participation criteria	Description	Lock-up period[1]
Ordinary variable remuneration	Variable remuneration of at least CHF 500	One free share; each share purchased by the employee thereafter is subsidised by the Bank at 75%, subject to an overall cap of 30% of the employee's bonus	5 to 10 years (as chosen by employee)
Additional discretionary bonus	Consolidated net income compared with the preceding 3 years	50% of bonus granted in shares for members of the Executive Board[2] and senior management, 20% for other employees	5 years[3]
Seniority	From 3 years' service	Between CHF 1,000 and CHF 3,500[4] in shares	5 years
Loyalty	From 10 years' service and every 5 years thereafter	CHF 4,000 in shares	5 years
Share ownership plan	From one complete calendar year of service	CHF 1,000 in shares, subject to purchase of CHF 1,000 in shares at market price	5 to 10 years (as chosen by employee)

[1] The lock-up period does not apply in the case of termination of employment, except for employees whose employment contract ends due to retirement or disability; in such cases, they may choose to keep the lock-up period in place.
[2] Every year, the Board of Directors has the option to adjust this ratio for members of the Executive Board.
[3] For members of the Executive Board, the lock-up period remains in place following the termination of their employment contract.
[4] From 25 years of service.

1. Methods of remuneration

1.1 Board of Directors

1.1.1 Policy and principles

The policy governing the remuneration of the Board of Directors fall under the Board's authority. It was approved by the Board on 17 September 2010 and took retroactive effect on 1 July 2010. It was most recently amended on 12 December 2024, with the share-ownership plan taking effect retroactively from 1 May 2024 and an adjustment to fixed salaries scheduled for 2026.

Members of the Board of Directors' pay is based on their workload, duties and risk exposure, as well as market practice and that of other cantonal banks.

The pay period spans the year from one general shareholders' meeting to the next.

In 2025, the remuneration policy was applied with no deviations from its principles and procedures.

1.1.2 Fixed remuneration

For their service on the Board of Directors and its various committees, members of the BCGE Board of Directors receive a fixed annual salary plus additional fixed pay based on their role.

The Board may also pay members for specific tasks they take on or enlist the services of external experts; it has an annual budget of CHF 50,000 available for this purpose.

1.1.3 Variable remuneration

To safeguard their independence and promote their interest in the Bank's long-term growth, members of the Board of Directors receive no variable remuneration.

1.1.4 Profit sharing plan

Members of the Board of Directors who have held their office for a full year may participate in a share-ownership plan with the following conditions:

- The first share is financed in full by the Bank.
- Each additional share is subsidised up to 75% by the Bank, with the balance paid by the Board member.

The total value of the shares acquired in this way may not exceed 30% of the fixed remuneration received by the Board member.

The shares are subject to a lock-up period of five years, even if the Board member's term of office expires during this period.

1.1.5 Entertainment allowance and professional expenses

The Chair of the Board of Directors receives an allowance of CHF 30,000 per year to cover the entertainment expenses inherent in the role.

Professional expenses are reimbursed in accordance with the expense regulations in force, which were approved by the Geneva Cantonal tax administration on 28 August 2015.

1.1.6 Social insurance benefits

Members of the Board of Directors are subject to the regular rules for social security contributions. However, they are not members of the BCGE Occupational Benefits Foundation.

1.1.7 Preferential terms

Members of the Board of Directors do not receive any preferential terms for BCGE products and services.

1.1.8 Gender representation

As at 31 December 2025, the Board of Directors consisted of 11 members, of whom five are women and six are men. The representation of each gender thus exceeds 30%.

1.2 Executive Board

1.2.1 General principles

The remuneration paid to members of the Executive Board is intended to ensure that the Bank remains competitive in a highly developed financial centre and is able to attract and retain the best talents.

Pay takes into account individual responsibilities, performance evaluations and market realities.

Members of the Executive Board receive fixed and variable remuneration. They do not receive commissions for new mortgage-lending or wealth-management business, unlike other Bank employees.

In addition, remuneration received by members of the Executive Board in the course of their duties on other boards of directors is passed on to the Bank in its entirety.

1.2.2 Fixed remuneration

Members of the Executive Board receive fixed remuneration for their basic duties and responsibilities.

When a Board member is appointed, their initial fixed pay is based primarily on the typical salaries paid for comparable positions in the banking sector.

Following that, fixed pay is adjusted on the basis of changes in their responsibilities and performance, in accordance with the same rules applicable to all Bank employees.

1.2.3 Variable remuneration

Members of the Executive Board receive variable remuneration to reward individual or collective performance over and above their standard duties.

The total amount paid out to the Executive Board as variable remuneration is determined by the Board of Directors. The Board of Directors makes its decision based on the Bank's profitability, productivity, competitiveness and risk control.

This sum is then divided among the individual members of the Executive Board based on the degree to which they achieved their specific objectives and how well their division performed.

In the event that the Bank's performance is exceptionally strong, the Executive Board receives an additional discretionary bonus, 50% of which is paid in the form of Bank shares subject to a five-year lock-up period. This bonus is awarded if the operating profit for the year under review is higher than the average result of the two best years out of the three previous years. It was not paid out in 2025.

Members of the Executive Board's total pay may therefore fluctuate from one year to the next depending on whether or not the additional discretionary bonus is paid out.

Overall, the variable component of Executive Board remuneration should not exceed the fixed component.

In the year under review, variable remuneration – including participation in share-ownership plans – accounted for between 41.51% and 61.33% of total remuneration.

The fixed and variable components of each Executive Board member's pay is decided by the Board of Directors based on a proposal made by the CEO (excluding their own pay package) and the recommendation of the Appointments and Remuneration Committee.

1.2.4 Share-ownership plans

Like all Bank employees, members of the Executive Board are eligible to participate in the available share-ownership plans.

1.2.5 Entertainment allowance and professional expenses

Members of the Executive Board receives an allowance of CHF 30,000 per year to cover the entertainment expenses inherent in the role.

Professional expenses are reimbursed in accordance with the expense regulations in force, which were approved by the Geneva Cantonal tax administration on 28 August 2015.

1.2.6 Social insurance benefits

Members of the Executive Board are subject to the regular rules on social security contributions.

They are also members of the BCGE Occupational Benefits Foundation under the same conditions as other Bank employees. Further details on the pension plan can be found in the BCGE sustainability report.

1.2.7 Preferential terms

Members of the Executive Board benefit from preferential conditions for BCGE products and services, on the same basis and under the same conditions as the other Bank employees.

1.2.8 Gender representation

As at 31 December 2025, the Executive Board comprised seven members, two of whom are women and five of whom are men. The representation of each gender thus exceeds 20%.

* Following a stock split, the par value of the BCGE share was reduced from CHF 50 to CHF 5. The total par value of the share capital remains unchanged. For clarity, figures from the previous year have been restated to reflect the new par value.

[1] The principles governing remuneration for the Board of Directors are detailed in the remuneration report on page 44.

[2] Maximum limits for Lombard loans or mortgage-backed loans.

[3] BCGE directors receive a fixed annual salary plus, in some cases, additional fixed pay based on their role, as set out in the remuneration policy. The regulations governing compensation apply here. There were no deviations from the policy's principles and procedures.

[4] BCGE shares are blocked for a lock-up period of five years. This lock-up period continues to apply in the event the Board member leaves the Bank. Stock options are not included in BCGE's share ownership plan.

[5] The members of the Board of Directors benefit from a share-ownership plan for each full year of service from one annual general meeting of shareholders to the next:
Period from January to April 2025: average real purchase price of CHF 24.32 at 10 June 2025, with a discounted value of CHF 18.17.
Period from May to December 2025: estimate of CHF 24.60 at 31 December 2025 with a discounted value CHF 18.38.
Period from January to April 2024: average real purchase price of CHF 28.32 at 12 June 2024 with a discounted value CHF 21.16.
Period from May to December 2024: estimated price of CHF 25.50 at 31 December 2024 with a discounted value CHF 19.05.

[6] No longer a member of the Board of Directors at 31 December 2025, so the corresponding number is not stated.

[7] No figure provided as he was no longer a member of the Board of Directors at 31 December 2024.

2.1.2 Other remuneration and loans

No other remuneration within the meaning of Article 734a, paragraph 2 of the Code of Obligations other that that mentioned in section 2.1.1 was paid directly or indirectly to members of the Board of Directors in the financial year under review.

In addition, no remuneration was paid directly or indirectly to former members of the Board of Directors in the financial year under review.

No other loans within the meaning of Article 734b, paragraph 1 of the Code of Obligations other than those mentioned in section 2.1.1 were granted to members of the Board of Directors in the financial year under review.

In addition, no outstanding loans or other lending arrangements that do not comply with market practice were granted to former members of the Board of Directors.

2.1.3 Close associates

As at 31 December of the reporting year, no remuneration was paid to any close associates of members of the Board of Directors.

In addition, no outstanding loans or other lending arrangements that do not comply with market practice were granted to any close associates of members of the Board of Directors.

2.1.4 Roles in other companies

The functions performed by the members of the Board of Directors are listed in section 3 of the governance portion of this report ("Board of Directors").

2.2 Executive Board

*2.2.1 Pre-tax remuneration**

	Remuneration in cash			Remuneration in shares[1, 2, 3]	Total remuneration	Social security contributions[4]
	Fixed	Variable[1]	Total	Variable	Total in CHF	Total
Nicolas Krügel, CEO	680,720	921,537	1,602,257	158,239	1,760,496	300,283
Executive Board total	**2,690,458**	**2,361,919**	**5,052,377**	**368,112**	**5,420,489**	**1,150,870**
Nicolas Krügel, CEO (previous year)[5]	558,117	967,087	1,525,204	179,411	1,704,615	251,473

Total, Executive Board (previous year)	**4,930[4]**	**17,010[4]**	**5,780[4]**	**16,840**	**215,440**	**232,280**	**0**	**3,235,149**

* Following a stock split, the par value of the BCGE share was reduced from CHF 50 to CHF 5. The total par value of the share capital remains unchanged. For clarity, figures from the previous year have been restated to reflect the new par value.

1 Free shares received by the Executive Board on the condition of simultaneous purchase of shares at market price.

2 Restricted shares acquired at market price under the Bank's share-ownership plans.

3 Maximum limits for Lombard loans or mortgage-backed loans.

4 These figures take into account changes within the Executive Board during the reporting year.

2.2.3 Other remuneration and loans

No other remuneration within the meaning of Article 734a paragraph 2 of the Code of Obligations other than that mentioned in section 2.2.2 was paid directly or indirectly to members of the Executive Board in the financial year under review.

In accordinace with a contractual provision, CHF 100,000 was paid out to a former member of the Executive Board in the financial year under review.

No other loans within the meaning of Article 734b paragraph 1 of the Code of Obligations other than those mentioned in section 2.2.2 were granted to members of the Executive Board in the financial year under review.

In addition, no loans or other lending arrangements that do not comply with market practice were granted to former members of the Executive Board.

2.2.4 Close associates

As at 31 December of the reporting year, no remuneration was paid to close associates of members of the Executive Board. In addition, no outstanding loans or other lending arrangements that do not comply with market practice were granted to any close associates of members of the Executive Board.

2.2.5 Roles in other companies

Other roles performed by the members of the Executive Board are listed in section 4.2 of the governance portion of this report ("Executive Board").

2.2.6 Board fees transferred to the Bank

In CHF, excluding tax	
Nicolas Krügel, CEO	61,500.00
Frédéric Vernet, CFO	36,563.85
Jean-Marc Joris	28,000.00
Executive Board total	**126,063.85**
CEO (Blaise Goetschin until 05.03.2024 and Nicolas Krügel from 06.03.2024) (previous year)	70,750.70
Virginie Fauveau (previous year)	9,904.75
Executive Board total (previous year)	**80,655.45**

3. Approval of the remuneration report

Pursuant to Article 11, paragraph 2(h) of the LBCGe, the remuneration report drawn up by the Board of Directors is subject to shareholder approval, on an advisory basis, at the general shareholders' meeting.

4. Independent auditor's report

Report of the statutory auditor

To the General Meeting of Banque Cantonale de Genève, Geneva

Report on the Audit of the Remuneration Report according to Art. 734a-734f CO

Opinion

We have audited the remuneration report (pages 41 to 51 of the annual report) of Banque Cantonale de Genève (« the Bank») for the year ended 31 december 2025.

In our opinion, the information pursuant to Art. 734a-734f CO in the accompanying remuneration report complies with Swiss law and the Company's articles of incorporation.

Basis for opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the "Auditor's Responsibility for the Audit of the Remuneration Report" section of our report. We are independent of the Company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report, but does not include the tables marked "audited" in the remuneration report, the consolidated financial statements, the stand-alone financial statements and our auditor's reports thereon.

Our opinion on the remuneration report does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the remuneration report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the audited financial information in the remuneration report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Deloitte.

Board of Directors' Responsibilities for the Remuneration Report

The Board of Directors is responsible for the preparation of a remuneration report in accordance with the provisions of Swiss law and the Company's articles of incorporation, and for such internal control as the Board of Directors determines is necessary to enable the preparation of a remuneration report that is free from material misstatement, whether due to fraud or error. It is also responsible for designing the remuneration system and defining individual remuneration packages.

Auditor's Responsibilities for the Audit of the Remuneration Report

Our objectives are to obtain reasonable assurance about whether the information pursuant to

Art. 734a-734f CO is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this remuneration report.

As part of an audit in accordance with Swiss law and SA-CH, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement in the remuneration report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made.

We communicate with the Board of Directors and/or its relevant committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors and/or its relevant committee with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

6. Shareholders' participation rights

6.1 Limitation and representation of voting rights

6.1.1 Statutory provisions

Pursuant to Article 11, paragraph 1 of the Articles of Association, when electing members of the Board of Directors representing shareholders other than the public authorities and the member of the Appointments and Remuneration Committee chosen from among these members, the public authorities do not have the right to take part in these elections and exercise the voting rights attached to the shares they are required to hold pursuant to the Bank's Articles of Association.

There are no other limitations on shareholders' voting rights nor are there any provisions in the Articles of Association governing the granting of exceptions.

6.1.2 Additional information to be provided for issuers not subject to the provisions of joint-stock company law pursuant to Article 620 – 762 CO

There are no limitations on voting rights or clauses governing the granting of exceptions for institutional representatives. No exceptions were actually granted during the year under review.

6.1.3 to 6.1.6

Not applicable.

6.2 Quorum

- The general meeting of shareholders shall be duly constituted irrespective of the number of shares represented. Decisions and elections are by absolute majority of the votes attached to the shares represented. The following decisions require a majority of at least two-thirds of votes: the adoption or amendment of the Articles of Association; limitation or abolition of preferential subscription rights; delisting of the Bank's equity securities; notice of the merger, splitting or transformation of the Bank, as well as its dissolution.
- For elections, if a second round of voting is required, a simple majority is sufficient. In the event of a tie, the Chair of the general meeting of shareholders shall have the deciding vote. Elections are held by secret ballot. At the request of 30% of the votes represented, other decisions may also be made by secret ballot.

6.3 Convening of the general meeting of shareholders

- The Annual general meeting of shareholders is held once a year within six months of the end of the financial year. An extraordinary general meeting of shareholders may be convened as often as necessary. One or more shareholders representing at least 5% of the share capital may also request in writing that an extraordinary general meeting of shareholders be convened, stating the intended purpose.
- The independent auditor may also convene an extraordinary general meeting of shareholders, if necessary. An extraordinary general meeting of shareholders may likewise be convened by liquidators and representatives of bondholders in accordance with the provisions of the Code of Obligations.
- The general meeting of shareholders must be convened by the Board of Directors at least 20 days in advance by placing a notice in the Official Gazette of the Republic and Geneva Canton (Feuille d'avis officielle de la République et Canton de Genève) and in the Swiss Official Gazette of Commerce.

6.4 Agenda items

One or more shareholders representing at least 0.5% of the share capital may request in writing to add an item to the agenda, specifying their motion; this request must be received at least 60 days prior to the general meeting of shareholders. Under these same conditions, shareholders may also request that motions concerning the items added to the agenda be included in the invitation to the general meeting of shareholders.

Shareholders who request that an item be added to the agenda or who have suggestions to put forward in relation to an item on the agenda may add a brief note describing the item or suggestion. This supporting statement shall be reproduced in the invitation to the general meeting of shareholders.

6.5 Share registration

- The Bank keeps a share register. Only persons whose names are included in the share register as shareholders with voting rights are considered by the Bank to be shareholders and shall be authorised to exercise their right to vote at the general meeting of shareholders.
- The share register is generally closed 20 days prior to the general meeting of shareholders. The precise date is communicated to the Swiss stock exchange an average of two months before a general meeting of shareholders. No exceptions are currently provided for.

7. Takeovers and defensive measures

7.1 Obligation to make an offer

No 'opting out' or 'opting up' statutory provision exists.

7.2 Takeover provisions

There is no agreement or any prepared programme for the benefit of members of the Board of Directors and/or the Executive Board in respect of takeovers.

7a Transparency on non-financial matters

These issues are not relevant, as BCGE is subject to the regulation on non-financial matters (Article 964a et seq. CO). The Bank's sustainability report provides information on non-financial matters.

8. Independent auditor

The annual general meeting of shareholders accepted the renewal of the mandate of the Bank's independent auditor, Deloitte SA, for 2025.

8.1 Duration of the audit mandate and term of office of the lead auditor

The independent auditor is re-elected each year by the general meeting of shareholders.

Since 2019, Alexandre Buga has been the lead auditor, within the meaning of the legal provisions applicable to banks.

Following a call for tenders issued in June 2025, the BCGE Board of Directors appointed PricewaterhouseCoopers (PwC) as BCGE's auditor for 2026. This motion will be subject to a vote at the next general meeting of shareholders on 28 April 2026.

8.2 Auditor's fees (in CHF)

The auditor's fees are paid to Deloitte.

	31.12.2025	31.12.2024
Audit of BCGE Group	785,000	644,000
of which BCGE only	645,000	530,000

Ex-VAT and fee disbursements

8.3 Additional fees (in CHF)

Additional audit fees essentially comprise the cost of conducting a brief review of the half-yearly consolidated financial statements as well as various other certifications required in accordance with specific legal requirements.

	31.12.2025	31.12.2024
Audit of BCGE Group	197,000	142,000
of which BCGE only	197,000	142,000

Additional fees amounting to CHF 268,500, which are not related to the audit, were paid in 2025 to a company in the Deloitte network (CHF 273,900 in 2024). These fees mainly related to work involved in preparing tax statements provided by Deloitte Solutions SA.

8.4 Information on the independent auditor

In 2025, the independent auditor was invited to attend parts of three meetings together with the full Board of Directors (also three meetings in 2024) and six meetings with the Audit Committee (six meetings in 2024). The discussions focused on planning for and presenting the actions that need to be taken based on the findings of the BCGE Group audit.

The Board of Directors, the Audit Committee and Internal Audit receive reports from the independent auditor.

9. Information policy

- The Bank expresses its views through the Chair of the Board of Directors at the general meeting of shareholders, and through the CEO who acts as a spokesperson. The CEO delegates the responsibility to the Corporate Affairs and Communication Department, which reports directly to him.
- The Bank communicates with its stakeholders (shareholders, clients, employees and the community) via the BCGE website and mobile app, as well as through BCGE's social network platforms.
- In addition to the publications required by the regulator (annual report, sustainability report), the Bank produces institutional and financial publications intended to provide information on what the institution does and how the broader economy is performing.
- The Bank issues press releases as required, in compliance with applicable rules in Switzerland (in particular the SIX Directive on ad hoc publicity). It also regularly invites journalists to press conferences held at its premises.
- The Bank interacts with financial analysts as mediators for communicating information to stakeholders, in particular shareholders and investors, by notifying them of business developments and sharing its views.
- The Bank's stakeholders are invited to submit their questions to the Bank by email (see the table below).

10. Trading lock-up periods

The Head of the Finance Division imposes a lock-up period while the Bank's results are being prepared and published. This lock-up period starts no later than two weeks before the close of the annual or half-year accounting period and ends when the results are published.

The lock-up period applies to the following persons:

- Members of the Executive Board
- Members of the Board of Directors and member of the Audit Committee appointed by the State Council
- Employees of the Accounting, Management Control and ALM Departments
- Employees of the Risk Unit
- Employees of Internal Audit
- Director of the Financial Markets and Treasury Department, as well as employees in charge of the Bank's Treasury and market making in the Bank's shares;
- Employees with access to the Executive Board's SharePoint and those with access to the Finnova accounting module
- All persons designated by name by the Head of the Finance Division.

Persons subject to a lock-up period are prohibited from:

- carrying out personal transactions, i.e. purchasing or selling BCGE registered shares, either on or off the stock market, directly or through a third party (e.g. an asset manager), with the assistance of a third party or not, or undertaking any transactions with an economic effect similar to selling or purchasing the Bank's shares
- revealing confidential information in any manner whatsoever to other Bank employees or to third parties
- giving third parties advice related to transactions involving Bank's shares or other specifically designated securities

We strive to fulfil the dreams of others.

We are here to offer high-quality financial services to our clients, Geneva and the entire region at every step of their journey while deploying responsible management practices.

Each day, we are driven by our three key values: authenticity, courage and fairness.

* proposal to be submitted to the general shareholders' meeting on 28 April 2026.

The par value of the BCGE share changed from CHF 50 to CHF 5 following a stock split. The total par value of the share capital remains unchanged.

For the sake of clarity, previous years have been restated to reflect the new par value.

[1] See Comments on the Group financial statements in this report.
[2] P/E: price-to-earnings ratio – If you multiply the net profit of a company by the price-to-earnings ratio you can determine the current share price. The P/E ratio is often used to determine the worth of a company's stock.

Introduction
Consolidated financial statements

1. Registered name, legal form, registered office and purpose

Banque Cantonale de Genève (hereafter "BCGE" or the "Bank") is a limited company established by public law according to Article 763 of the Swiss Code of Obligations. It has the status of a cantonal bank as defined by the Swiss Federal Banking Act. The Bank was registered in the Geneva Trade Register on 17 December 1993 and conducts its business under the registered name "Banque Cantonale de Genève SA". BCGE's head office and governing bodies are located in Geneva.

Banque Cantonale de Genève provides the services of a regional full-service bank and is committed to supporting the economic development of the canton and the region in general.

Its services include mortgage lending, business and personal loans, and trade finance. The Group[1] also specialises in asset management and manages public issues and investments on the financial markets.

The Bank bases its commercial activities on its diverse competencies and expertise and aligns its business model to the specific characteristics and needs of the Geneva economy.

Employee headcount	31.12.2025	31.12.2024
Full-time equivalents	958.37	968.17
Average full-time equivalents	955.30	950.27
Headcount	1,010	1,021
Average headcount	1,007.50	1,003

Activity report

The Bank reports on its capital adequacy in the document "Capital disclosure requirements", in accordance with the Basel III guidelines. It applies the standard Swiss approach for credit risk, the standard approach for market risk, and the base indicator approach (BIA) for operational risk.

The Bank's strategy is to outsource service operations so it can focus on its core business of creating high value-added for its clients.

Outsourcing services

Outsourced relationships are governed by service level agreements (SLAs) in compliance with the FINMA Circular 2018/3 "Outsourcing – banks and insurers". The mandates entrusted to Swisscom (Switzerland) Ltd mainly comprise payment and securities transactions (enabling a quality of service comparable with that offered by the top Swiss banking institutions), operation and hosting of the central IT system, data storage, printing and mailing of bulk documents, online identification services and maintenance of certain IT infrastructure.

Additional contracts were also entrusted to Bottomline Technologies Sàrl for money transfers and interbank messaging, Econis AG for dormant and unclaimed assets declarations, Viseca Payment Services SA for debit card management and Arcplace SA for the digitisation of incoming mail.

[1] The BCGE Group consists of the Parent Company (Banque Cantonale de Genève, its agencies, branches and representative offices in Dubai and Hong Kong) and its subsidiaries (Banque Cantonale de Genève France SA, Loyal Finance AG, Dimension SA, Mont-Fort Funds SA, Capital Transmission SA and BCGE (Asia) Company Limited).

Agreement with the majority shareholder

Article 33, paragraph 5 of the Bank's Articles of Association, adopted by the general meeting of shareholders on 3 May 2005, formalises the repayment of loans granted by the State of Geneva to BCGE's Fondation de valorisation des actifs at the start of the 2000s. The Bank repays these loans in proportion to the dividends distributed to shareholders (20% of dividends paid). After the foundation was dissolved, the State Council, by decree dated 21 October 2011, set the remaining amount of the loans to be repaid by the Bank at CHF 370,661,634 as at 31 December 2009.

An amount of CHF 10.1 million will be paid for the 2025 financial year, an increase of 7.7% compared with the previous year, provided that the dividend proposed by the Board of Directors is adopted by the general meeting of shareholders. This means that a combined amount of CHF 92.2 million will have been repaid since 2009, bringing the repayments made by the Bank to a grand total of CHF 119.7 million since its consolidation in 2000.

2. Accounting and valuation principles

Basis of preparation

The Group's consolidated financial statements are prepared in accordance with the Swiss Code of Obligations, the Swiss Federal Banking Act and its implementing ordinance, FINMA Circular 2020/1 "Accounting – banks" and the FINMA Accounting Ordinance (FINMA-AO)

The Group accounts have been prepared according to the "true and fair view" principle.

Closing date for consolidated accounts

The accounts are closed at 31 December of each year.

Scope of consolidation

The scope of consolidation comprises Group entities that are material to the consolidated financial statements. The scope did not change in 2025.

Banks and other entities are fully consolidated if they are held as long-term investments and the parent company has a direct or indirect stake of more than 50%. Banks and other entities are accounted for using the equity method if they are held as long-term investments and the parent company has a direct or indirect stake of between 20% and 50%.

Details of the Group's scope of consolidation can be found in the appendix, note 4.07.

Group consolidation process

• Basis of consolidation

When an equity interest is acquired, the difference between the carrying amount of the investment in the consolidated entity and the Group's share of that entity's net assets is allocated to fair value adjustments or to goodwill. Equity is consolidated using the acquisition method: the purchase price of the equity interest is offset against the Group's share of the revalued equity (fair value of net assets) at the acquisition date.

• Goodwill

Goodwill, including goodwill arising on initial consolidation, is carried on the balance sheet under "Intangible assets" and amortised through the income statement over a maximum period of ten years. The Group reviews the value of its subsidiaries at the close of each quarter. If the goodwill value of a subsidiary has suffered an impairment, the carrying amount of the subsidiary is revalued and the corresponding impairment loss is recorded under "Depreciation and amortisation of fixed assets and impairment on equity investments."

• Intercompany transactions

Liabilities and receivables as well as income and expenses from intercompany transactions between consolidated entities are eliminated.

Treatment of foreign currency translation differences

Assets, liabilities, and depreciation of tangible fixed assets of entities domiciled outside Switzerland and denominated in foreign currencies are translated into CHF at the closing exchange rates prevailing at the reporting date. Income statement items of these entities, other than depreciation of tangible fixed assets, are converted into CHF at the average exchange rates based on the closing rates over the 12 months of the financial year. Equity of these entities is translated at the historical average exchange rates of each balance-sheet item. The resulting translation differences are recognised directly in equity under "Currency translation reserve."

Group valuation methods

The Group's consolidated financial statements are based on the statutory financial statements of the Group entities, prepared using uniform accounting principles and valuation methods. Specific adjustments are made to ensure a true and fair view, primarily with respect to treasury shares and receivables, which are offset against the corresponding liabilities.

Recognition principles

Transactions are recorded in the books on the date of conclusion.

Currencies, banknotes and precious metals

Assets and liabilities denominated in foreign currencies are translated into CHF at the following rates:

Main currencies	Units (currency)	Exchange rate 31.12.2025	Exchange rate 31.12.2024
US dollar	1	0.7931	0.9042
Euro	1	0.9311	0.9414
Pound sterling	1	1.0655	1.1340
Yen	100	0.5063	0.5765

Income and expenses are translated at the exchange rate prevailing on the transaction date. Exchange gains and losses arising from translation are recognised under “Net trading income”.

Cash and cash equivalents

Cash and cash equivalents are recogised at nominal value.

Receivables and payables from banks and clients, mortgage loans

Amounts due to and from banks and customers are recognised at nominal value. Collateral pledged as security is subject to prudent, systematic and periodic valuation applying uniform principles and, other than in exceptional cases, based on market value.

The Bank values real estate in one of three ways: using an expert system (hedonic approach); applying internal expertise in the case of unusual or luxury items; or by discounting future cash flows in the case of income properties.

Receivables are stated on the balance sheet at no more than their value to the Bank. Value adjustments, established to cover known or estimated risks of loss at the reporting date, are deducted from the corresponding asset items. Related interest and fees that remain unpaid 90 days after their due date are considered impaired and are booked directly under value adjustments as a deduction from the corresponding asset items. They are only recognised in the income statement upon actual receipt.

In the case of consumer-credit portfolios (personal loans and leasing) consisting of a large number of smaller receivables of a similar nature, individual value adjustments are determined on a flat-rate basis using historical data.

Receivables and payables from securities financing transactions

Receivables and payables arising from securities financing transactions, formerly referred to as repurchase and reverse repurchase agreements are recognised as follows:

- Cash exchanged is recognised on the balance sheet.
- Transfers of securities are not recognised on the balance sheet as long as the transferor retains effective control over the securities transferred.
- Subsequent sale of securities is recognised on the balance sheet at fair value as a non-cash financial liability.

Trading operations

Trading portfolio instruments are recorded on the balance sheet at their market value on the reporting date. The result is recognised under "Net trading income and fair-value adjustments".

In accordance with the true and fair view principle applicable at Group level, own debt instruments are not reported at market value, but at nominal value and are recognised as a deduction from the corresponding liabilities.

Own shares are recognised at Group level by deducting their acquisition cost from equity under a separate item, "Own shares". Dividend payments and results of disposals are allocated to the capital reserve.

Hedging operations

The Bank uses derivative financial instruments to protect itself from market risks. Hedging transactions are valued in the same way as hedged items, and the resulting gains and losses are recognised under the same line item in the income statement.

Financial investments

Financial investments include securities held for the long term and companies acquired for strategic purposes which are likely to be sold in the medium term.

Debt and equity securities are valued either at the lower of market value and acquisition cost or, in the case of securities intended to be held to maturity, using the accrual method. The net impact of changes in value is recognised in ordinary income or expenses. Buildings acquired in the course of lending operations and intended for resale are carried on the balance sheet at acquisition cost, less any adjustments in value and financially necessary liquidation costs, in accordance with the lower of cost or market principle.

Tangible fixed assets

Fixed assets are carried on the balance sheet at acquisition cost and are depreciated on a straight-line basis over their expected useful life, not exceeding the following:

Bank buildings	100 years
Fixtures	10 years
Furniture and fittings	5 years
Machinery	5 years
Software and IT	3 to 10 years, depending on their useful life

Taxes

An estimate of the taxes payable for the financial year is recognised based on the earnings for that year. The impact of the Group's tax accruals is recorded under deferred taxes.

Due to banks

Amounts due to banks are recognised at nominal value.

Client deposits

All liabilities arising from non-bank client deposits are recognised at nominal value.

Positive and negative mark-to-market values of derivative financial instruments.

Derivative financial instruments outstanding at the reporting date are measured either at fair value or using a valuation model, depending on the type of instrument. They are recorded under "Positive/negative mark-to-market values of derivative financial instruments" and are recognised based on the purpose of the underlying transaction:

- Trading transactions are recognised in the income statement at fair value.
- Hedging transactions are recognised in a manner consistent with the underlying hedged item.

Provisions and value adjustments

Provisions include amounts intended to cover operating risks, value adjustments for inherent and other default risks on off-balance-sheet exposures and deferred taxes.

Past-due and impaired receivables are assessed individually and any impairment is covered by specific value adjustments. Impaired receivables, together with related collateral, are assessed at liquidation value, taking into account specific value adjustments based on the counterparty's ability to pay. Off-balance-sheet transactions are also included in this assessment.

In addition to specific value adjustments, the Group, as a category 3 institution, makes value adjustments for inherent default risks, in accordance with Article 25, paragraph 1(b), of FINMA-AO. Unlike the impaired exposures described above, performing receivables involve counterparties that are likely to meet their future obligations. The method for calculating value adjustments for inherent default risk was established by the Group in 2019 and consists of grouping risk-weighted assets[1] by business segment, taking into account both on- and off-balance-sheet exposures.

Eight business segments[2] have been identified, with a loss factor calculated for each segment. The loss factors reflect the estimated loss over a medium-term horizon and are reassessed annually based on the Group's historical credit losses, as part of the financial plan review. If the estimated loss potential appears to be too low or otherwise unsuitable, the estimate may be adjusted based on an expert assessment. In 2025, this procedure led to a CHF 21.7 million increase in the expected loss for real estate and corporate banking in France.

The value adjustment for inherent default risk is calculated for each business segment by multiplying the segment's risk-weighted assets by its loss factor. The combined amounts for these eight segments constitute the Group's total value adjustments for inherent risks. The risk-weighted assets for each segment are recalculated at each reporting date and the corresponding value adjustments updated accordingly.

1 RWA: Risk-weighted assets.
2 Consumer loans, Swiss real estate for individuals, Swiss real estate for corporate clients, Swiss corporate banking, French real estate and corporate clients, public authorities, trade finance, banks and financial markets.

If allowances for inherent default risks are used, the portion that has been drawn down is replenished on a straight-line basis over a maximum of five years, starting in the fiscal year following the drawdown. The Executive Board may use these allowances once provision expense for credit risk exceed the annual loss budget established in the financial planning process. Value adjustments for inherent default risk on client loans, mortgage loans and interbank banks are recognised through a deduction to the corresponding balance-sheet items. The portion that is attributed to off-balance-sheet exposures and to financial investments is recorded under "Provisions". The consolidated amounts are provided in note 4.16.

Reserves for general banking risks
Reserves for general banking risks are precautionary reserves set aside under the "Reserves for general banking risks and changes therein" item to cover general business risks. These reserves are subject to taxation.

Contingent liabilities
Contingent liabilities mainly consist of credit substitutes issued in the form of guarantees, sureties and indemnities.

Irrevocable commitments
Irrevocable commitments are loans or other credit facilities that have been definitively granted but remain undrawn at the reporting date. Commitments to pay under deposit guarantee schemes are recognised under this item.

Commitments relating to calls on shares and other equity securities
This item includes commitments relating to calls on shares and other equity securities.

Changes in accounting principles
There were no changes in the accounting and valuation principles during the 2025 fiscal year.

3. Risk management

Continuous improvement of the risk management system
The Group's risk management system is subject to regular monitoring and review. This ensures continuous improvement to achieve the system's stated objectives, specifically:

- identify and analyse the Group's main risks
- draw lessons from past experience in order to improve overall risk control within the organisation
- address emerging risks and external risk factors, including regulatory changes.

The units in charge of risk monitoring collectively track and model these risks so that the Group can maintain an optimal balance between risk and return. They are also charged with tracking and communicating information on compliance with regulations and with the limits set by supervisory authorities as well as by the relevant units within the Group.

1. Risk management

1.1 Objectives

The Group pursues a long-term business strategy. Risks are managed as part of an integrated, consistent approach across all the Group's activities and operations.

The main objectives of risk management at the Group are as follows:

- systematically identify risks, assess the Group's risk profile, and ensure appropriate monitoring and reporting according to regulatory requirements
- ensure the Group's long-term viability and keep its risk-taking capacity aligned with its risk profile
- optimise return on equity by making sure that the Group's risk profile is consistent with its risk tolerance framework.

1.2 General principles

Risk management within the Group is based on the following principles:

- create and preserve value
- comply with legal and regulatory requirements
- perform objective risk assessments
- be dynamic, iterative, forward-looking and responsive to change
- draw on the best available information
- adhere to the principles of the Group's sustainability policy
- be transparent and participatory
- facilitate continuous improvement in the Group's processes and organisation.

All Group employees are kept informed of this risk culture by means of regular communications, targeted training and reporting.

1.3 Governance

The Board of Directors decides on the Group's risk management principles, ensures appropriate monitoring and establishes the conditions for the Group's risk policy, especially in terms of the applicable framework. It approves the risk appetite and tolerance thresholds and ensures that its guidelines are followed. As part of its oversight function, the Board of Directors regularly receives a range of reports including a quarterly report on the Group's risk profile, an annual report on internal controls and operational risks (abbreviated internally as CIROP), annual strategic and financial planning reports, and a budget.

The Executive Board ensures that risk management processes are in place and that appropriate risk monitoring systems are used. The Executive Board assumes responsibility for risks and ensures that monitoring duties, the associated responsibilities, and the applicable risk appetite and tolerance thresholds are communicated adequately and followed at all levels of the organisation. Risk monitoring is delegated to two Executive Board Committees:

- the Risk Committee, which monitors the risk profile at Group level
- the Asset and Liability Management Committee, which is responsible for monitoring balance-sheet risks management (interest rate risk in the banking book, liquidity risk and equity management).

The Group's risk management system is based on three lines of defence:

- First line of defence: the income-generating units (front office, support and back office) are responsible for the risks arising from their activities and they must identify, assess and control these risks. These teams are supported by the Group's Credit Office, which reviews loan applications based on the tolerance levels established for each client segment.
- Second line of defence: the independent units involved in Level 1 reviews of adequacy and effectiveness, such as the Risk Business Unit, the ALM Department and the Legal and Compliance Division. These units are responsible for setting up an overall risk and control framework, monitoring how it's implemented and reporting on the Group's overall risk situation to the relevant bodies.
- The third line of defence: the Group's Internal Audit Department.

1.4 Risk appetite and equity planning

The Group's risk capacity (tolerance) is the maximum level of risk the Group can assume given its current level of resources before breaching the limits set by the Board of Directors; these limits are based in particular on regulatory requirements, the general operating environment and the Group's obligation towards its stakeholders (clients, shareholders and investors).

The Group's risk appetite is the level of risk for each risk type that the Group intends to assume to achieve its strategic objectives. The risk appetite is based on qualitative criteria and quantitative measures expressed chiefly in terms of profits, capital, risk metrics and liquidity.

The Group's risk profile is determined from an ad hoc assessment of the Group's gross exposure and, if applicable, net exposure to risk (inherent risk versus residual risk).

The Group has also defined key risk management indicators with a threshold and a limit for each one. Risk thresholds and limits have been set for all of the Group's activities in order to establish a target and maximum acceptable exposure for each type of activity. The return interest and commission income from transactions is assessed against the transaction costs and the risks incurred.

Equity planning is carried out at the Group to ensure that adequate capital is available in line with the Group's risk profile. It is performed in collaboration with the front-office units, the Risk Business Unit and the ALM Department. The Bank allocates exposure limits to each strategic business area so that the objectives can be achieved while meeting with the target level of equity coverage.

The equity requirements mainly relate to credit risk (accounting for 92%). Equity planning allows the Group to assess the level of equity required over a three-year plan based on a growth scenario or selected stress scenarios. The assessments are updated on a regular basis to incorporate growth forecasts, the Group's earnings capacity and stress test scenarios.

BCGE is classified as a category 3 institution under FINMA Circular 2011/2, which means our regulatory required capital ratio is 12% (the regulatory ratio was raised to 12.73% following the reinstatement of a 2.5% countercyclical buffer at the end of September 2022).

As at 31 December 2025, the Group's equity coverage ratio exceeded the regulatory requirement. Our required capital disclosures are available at bcge.ch > About BCGE > Publications > Financial reports.

1.5 Risk structure and consolidated monitoring

The Group's risk management structure is aligned with the principles of the parent company. The overriding goal is to obtain a comprehensive understanding of the risks facing the Group and implement consistent measures to manage these risks at the consolidated level.

BCGE has compiled an inventory listing all the risks to which the Group could potentially be exposed. The Group's main risks are identified using a materiality assessment based on criteria for establishing how critical each risk is according to its probability of occurrence and the impact it could have on net profit, reputation, regulatory compliance or resources (effort).

The Group's main risks identified using this method are as follows:

- credit risk (including concentration risk and country risk)
- market risk
- operational risk
- interest rate risk in the banking book
- liquidity and refinancing risk
- exchange-rate risk
- risk from proprietary investments
- compliance and legal risk
- human resources risk
- strategic risk
- reputational risk
- sustainability risk
- solvency risk, monitored through equity planning (see section 1.4).

The Risk Business Unit and the ALM Department in the Finance Division consolidate the Group's overall exposures. Front-office units review the latest risk management reports during meetings of the Risk Committee (CRISK) and Asset and Liability Management Committee (CALM) to ensure an effective overall approach.

The results of this review are reported to the Executive Board and the Board of Directors.

2. Credit risk

Credit risk relates to the inability of a counterparty or borrower to comply with the terms of a contract agreed with the Group or to fulfil the obligations outlined therein, affecting the Group's profits or capital. Credit risk is inherent in all businesses that depend on the performance of a counterparty, issuer or borrower. Credit risk also includes counterparty risk in the trading book and settlement risk.

Credit risk management strategy

The Group's credit risk management strategy is structured around three pillars:

- Default risk (ratings): the Group regularly analyses the output of rating models, looks at how internal ratings are used and examines how ratings are allocated. Ratings are generally well distributed overall, with the exception of the tail ends.
- Risk of decline in the value of collateral: the Group performs quarterly reviews of the real estate market, which may result in changes in the rules or methodology for granting loans (e.g. a change in the capitalisation rate). The Group's trade finance business tracks commodities prices, while the value of collateral used for secured loans is subject to daily monitoring.
- Loss given default: the Group closely monitors its loan exposures as well as the concentration of loans. The Group's risk appetite is applied using a comprehensive system of thresholds and limits, including country limits and strategic limits.

Lending decisions

The Group has implemented a lending decision framework that reflects its appetite for credit risk and concentration risk both by country and by business sector.

The Group uses a range of internal and external rating systems to assess the intrinsic quality of a borrower. These systems vary according to the type of counterparty and credit facility and can be statistical, expert or relational in nature. This results in a correspondence table of the various ratings against BCGE's own rating scale.

The main expert system used by the Group allocates ratings to borrowers on the basis of a ten-point scale (from A+ to E-), which is updated on dedicated systems. The rating models are provided by a system used jointly by around 12 cantonal banks and other large financial institutions.

These ratings serve as an aid when making lending decisions. The Group aims to ensure coherence between ratings and pricing.

The Credit Committee and the Board of Directors examine loan requests within their fields of competence and authorise transactions in line with their delegated authorities and the Group's established policy. This policy considers the liabilities of the Group's clients and counterparties that result from lending activities, the issuing of guarantees and currency transactions.

Loan monitoring

All commercial loans are subject to annual review. Should a borrower's rating deteriorate significantly, this triggers a risk assessment procedure; if necessary, an impairment is recognised and the file is transferred to the Workout or Claims Department.

For mortgage loans, the frequency with which collateral is reviewed is determined by the loan-to-value ratio and type of property. In all cases, if new evidence of risk emerges or there is an escalation in existing risks, a targeted analysis of the loans in question is performed.

Further details on provisions and loan impairments can be found in section 2, Accounting and valuation principles (introduction to the consolidated financial statements).

In addition, the Group carries out ad hoc analyses based on external factors.

Risk environment

The Group monitors its loan book in light of the series of negative events in recent years:

- The COVID-19 pandemic in 2020 and 2021. By the end of 2025, the Group had recovered around 88% of COVID-19 loans.
- The Russia-Ukraine conflict, which has been ongoing since 2022 and is weighing on global demand and the price of commodities. The Group has no exposure to Russia, Belarus or Ukraine.
- The tariffs imposed by the US and uncertainty in Swiss industry.
- The low-interest-rate environment combined with steadily rising property prices in Switzerland, particularly in Geneva. FINMA continues to closely monitor the real estate sector.

Property indices (UBS, CIFI, Wüest Partner, etc.) have grown steadily in the Lake Geneva real estate market over the past seven years.

In 2025, Swiss mortgage rates remained low, GDP increased, unemployment stayed at modest levels (with a slight uptick) and the Swiss construction index stabilised. All these indicators point to an increase in property values.

Eighty-two percent of the Group's real estate portfolio is located in the Geneva Canton, where vacancies stood at 0.34% at 1 June 2025 – the lowest level since 2012.[1] Exposures to commercial properties and offices are closely monitored in particular, as these two segments are considered to be less resilient than the residential segment.

In France, the residential market started to pick up in 2025, as reflected in both the volume of transactions and the prices per square metre, but the commercial real estate market is facing headwinds. As a result, the property development projects undertaken by the Bank's French real estate companies cannot proceed as scheduled. This is heightening the operational risk associated with these projects, especially with regard to the construction costs and the expenses incurred during the holding period, i.e. before construction gets underway. Consequently, the Group decided to recognise provisions for inherent credit risk (see p. 72, "Provisions and value adjustments").

Risk profile

The Group's non-performing loan ratio stood at 0.95% at 31 December 2025, down from 1.06% a year earlier.

The Group closely monitors commercial real estate in France, as well as the machinery, electrical equipment and metallurgy sector in Switzerland.

The Bank recognised CHF 11 million in provisions for specific counterparties.

Country risk

Country risks are under control. This applies to France, where the Group does a substantial amount of business through its subsidiary, Banque Cantonale de Genève France SA, as well as to countries with specific limits that are primarily linked to financing for international clients and bank counterparties.

The Group applies country limits, especially for international trade finance. Our Risk Department's business-line unit monitors these limits on a daily basis. Country limits for direct risks (based on a counterparty's country of incorporation) and indirect risks (based on the location of the underlying economic risk) are approved each year by the Board of Directors and are reviewed whenever there are material changes in a country's political or economic situation.

Geopolitical instability continued in 2025, fuelled by tensions in the Middle East, the ongoing Russia-Ukraine conflict and other occasional conflicts (North Kivu, the Bab el-Mandeb Strait, etc.). The Group continues to closely monitor the geopolitical environment.

[1] OCSTAT, Decrease in the loan-to-value ratio of housing units in Geneva Canton in 2025 (Recul du taux d'avance des logements dans le Canton de Genève en 2025), 28 July 2025.

Concentration risk

The largest concentrations of risk are in Geneva real estate (mortgage financing) and commodity traders (amounts due from clients). Significant risks ("risk concentrations" as defined in Article 95 of the Capital Adequacy Ordinance (CAO)) are monitored and controlled on an ongoing basis and are summarised in a quarterly report to the Board of Directors and the independent auditor.

The Group's integrated IT system for risk control calculates the funding requirements for each loan and aggregates them by economic group. Particular attention is paid to potential concentration risk. Loan exposures are subject to continuous monitoring and escalated immediately if the risk limits are approached. Simulations are carried out for all large-scale loan applications.

3. Market risk

The Group is exposed to minimal trading risk (mainly in the areas of exchange rates and interest rates) because it conducts only targeted and limited proprietary trading. Changes in positions and amounts held are checked daily.

Managing market risk involves identifying, measuring and checking open positions. A single ad hoc system is used to assess the trading portfolio and monitor limits. The incurred risks are to be assessed daily and reports are produced, as needed. An independent department is responsible for continuously monitoring compliance with limits and tracking stop-loss positions within Financial Markets and Treasury Department. The Group has a policy of maintaining low exposure to market risks in commodities trading.

4. Operational risk

Operational risk is the risk of financial loss resulting from inadequate or faulty internal processes or systems, from inappropriate conduct or human error, from external events or legal or non-compliance risk. Managing operational risk typically involves also taking into account other forms of damage to the extent that they can result in financial loss, excluding strategic and reputational risks.

The Group has developed an operational risk strategy to support the Group's growth and help it achieve its objectives by setting up robust and resilient processes to limit operational losses.

A comprehensive system has been implemented for this purpose, to identify, assess and control operational risk within the risk appetite framework approved by the Board of Directors. The system is based on the complementary approaches of the first and second lines of defence. The Group's operational risk unit verifies that the internal control system is adequate and effective, in particular by conducting independent reviews of key controls, monitoring of operational losses and logging operational incidents. For certain risks, the Group takes out insurance policies with a view to protecting its assets, income and employees.

The operational risk unit produces a report on Internal Controls and Operational Risk (CIROP), presented annually to the Board of Directors. The report discusses measures of operational risk and summarises the results of controls of the major risks. It also includes a section on information and communication technology and cyber risks.

BCGE is committed to continually strengthening its operational resilience in order to counteract major risks that could impact its critical functions. The group set up a governance framework that meets the regulatory deadlines up to 2026 set out in FINMA Circular 2023/1. This includes the creation of an Operational Resilience and Continuity Plan Committee, whose task is to provide strategic oversight and coordinate the work related to the Operational Resilience and Continuity Plan. An annual operational resilience report is drawn up and presented to the Board of Directors, which confirms the critical functions and their ability to withstand disruptions.

Cyber risk is still the most severe operational risk the Group faces, based on its risk profile. BCGE could fall victim to sophisticated attacks targeting its IT network. This risk is exacerbated by recent technological developments including artificial intelligence. BCGE is stepping up its efforts to combat cybercrime with the help of a system that monitors employees activities, as well as through proactive vulnerability management. The Group's IT security strategy also includes the

Bank's digital solutions; these efforts include enhancing security checks in order to safeguard technology platforms and accelerating the process for detecting potential cybercrime vulnerabilities. Committees meet on a regular basis to closely monitor cyber risks.

5. Interest rate risk in the banking book

Interest rate risk in the banking book mainly results from:

- the rolling over of maturities inherent in the business of a commercial bank and the consequent time differential or changes in the interest rates applicable to assets, liabilities and off-balance-sheet positions (repricing risk)
- the impact of fluctuations in interest rates for instruments with similar maturities, but that are valued using different interest rates (basis risk)
- implicit options or client behaviour that result in uncertain cash flows, e.g. for non-maturity deposits (such as sight deposits and savings accounts).

Interest rate risk is the risk arising from fluctuations in market interest rates and the adverse effects this could have on the Group's equity and profit margins. The Group takes into account two commonly accepted perspectives when assessing interest rate risk:

- Economic value perspective, which considers the effect of interest rate shocks on the economic value of equity
- Earnings perspective, which considers the effect on net interest income

The risk management strategy and risk tolerance framework for interest rate risk are proposed by the Executive Board through the ALM Committee and then approved by the Board of Directors.

Interest rate risk is monitored by the ALM Committee, as delegated by the Executive Board.

The ALM Committee monitors the Group's interest rate risk profile and ensures compliance with the risk tolerances set by the Board of Directors

Operational management of interest rate risk is carried out by the Finance Division, mainly through ALM sub-committees involving the ALM and Treasury Unit of the Financial Markets and Treasury Department, as well as the unit responsible for monitoring balance sheet risks (ALM Department).

The management and hedging of interest rate risk are carried out in accordance with the Group's policy on derivative financial instruments and hedge accounting. The Finance Division uses derivative financial instruments to manage and hedge interest rate sensitive exposures in the banking book.

6. Liquidity risk

Liquidity risk is the risk that the Group will not be able to honour its liabilities or service its debt at any given time, even by activating contingency measures such as tapping into the high-quality liquid asset (HQLA) reserve.

The main factors that may lead to a liquidity event are either:

- endogenous or idiosyncratic if they are specific to the Group, e.g. a loss of confidence in the Group's solvency
- exogenous or systemic if they relate to the entire banking system, e.g. as a result of a sovereign debt or banking crisis and the ensuing contagion
- In its risk management framework, the Group distinguishes liquidity risk from refinancing risk, which is the risk of not having the necessary financing or refinancing resources (e.g. an unforeseen shortage of sources of financing) or of being able to access financing only at unfavourable terms (market illiquidity).

The risk management strategy and risk tolerance framework for liquidity risk are proposed by the Executive Board through the ALM Committee and then approved by the Board of Directors.

Liquidity risk exposure is measured on the basis of a wide range of indicators, including the composition of the liquidity reserve, indicators for monitoring market conditions, financing concentrations, regulatory ratios and stress tests.

Liquidity risk hedging mainly involves holding a reserve of cash or HQLA that are mostly eligible for SNB repo transactions, in order to provide a cushion in the event of unexpected cash outflows (e.g. a liquidity crisis). The Group has a comprehensive and effective contingency financing plan outlining key countermeasures, their timelines for implementation, and the people who are authorised to activate them. The emergency financing plan is reviewed and confirmed annually by the Board of Directors.

7. Proprietary investment risk

This is the risk of a loss arising from fluctuations in the value of securities the Group holds as proprietary investments. Proprietary investment risk mainly relates to financial investments, including:

- bonds, which are held to maintain a pool of HQLA so that the Group meets the regulatory required liquidity coverage ratio. The bond portfolio is an essential complement to deposits held with the SNB (in particular the clearing account).
- private equity holdings, which are intended to enhance the profitability of the Group's assets. The Group does not make direct private equity investments; rather, it invests through funds selected according to a rigorous procedure and through an investment strategy that is highly diversified in terms of geographies, currencies and business sectors. This limits the amount of risk and ensures reasonable long-term returns.

The Group's long-term proprietary investment portfolio amounted to CHF 3 billion at 31 December 2025. It comprises a large proportion of securities eligible for SNB repo transactions; the vast majority of these securities are rated AAA, and none lower than A-.

8. Compliance and legal risks

Compliance risks are behavioural risks and relate to breaches of the law, regulations, contractual agreements, or internal policies or procedures. If these risks materialise, they can result in legal and regulatory sanctions, financial losses, limitations on the Group's business activity and/or reputational damage.

Compliance at BCGE means adhering to the applicable legal and regulatory requirements, internal policies, and the standards and ethical rules used in the Group's markets. The compliance function is responsible for ensuring that the conduct and actions of BCGE Group and its employees are consistent with the aforementioned requirements and standards. The function also manages the organisational measures designed to prevent breaches of the law and ethical rules and standards by BCGE Group, its governing bodies and its employees.

Money laundering and terrorism financing risks

The Compliance Department performs an annual analysis of money laundering and terrorism financing risks, as set out in Article 25, paragraph 2 of AMLO-FINMA, and submits a report to the Executive Board and the Board of Directors. The Group's governing bodies set the risk appetite and risk tolerance level for money-laundering risk on the basis of key indicators for the Group's business model. They are kept informed of any deviations from the framework that has been set.

This risk analysis includes the following elements:

- the method used and the operations and business lines covered (including subsidiaries and representative offices)
- the factors taken into account when setting the risk criteria and the tolerances for each criteria
- a money laundering risk assessment based on the risk criteria monitored by Compliance
- an assessment of the risk associated with sanctions
- a detailed table with quantitative data that also includes risk tolerance criteria.

The Group uses a risk scoring client (RSC) system to categorise client risk and determine the measures to be implemented. The risk criteria used in the RSC system are determined by Compliance and confirmed by the Executive Board. The criteria's weightings are set by Compliance according to the client segment and type. A risk score is given at the start of the business relationship with a client and then reviewed on a weekly basis using the RSC model. De-risking falls under the authority of Compliance.

If the RSC score reaches a certain level, the relationship is automatically categorised as "increased risk" and a client risk review is performed (including a review of the client relationship and transaction data).

This makes it possible to categorise and monitor clients according to several criteria: client type (e.g. a politically exposed person), geographical area, level of complexity, risk sector, amount of assets and/or business volumes.

In addition, the Compliance Department monitors other indicators such as communications from the Money Laundering Reporting Office Switzerland (MROS) and any unusual movements of funds.

Sanctions

The Group implements the sanctions programmes of Switzerland and other international bodies including the European Union, the United States and the United Kingdom.

The Group's sanctions policy includes the following principles in particular:

- No business relationships are entered into or continued with a sanctioned person or entity and/or that involve services that violate a sanctions programme.
- No transactions are carried out involving sanctioned persons, entities and/or property.
- No transactions are carried out in securities issued by a company located in a sanctioned jurisdiction.
- The risks of evading sanctions are monitored and tracked.

Swiss sanctions include the blocking or freezing of assets, and the Group's policy requires that persons subject to sanctions are classified as posing a very high level of risk and that their relationship is terminated within a required timeframe.

Cross-border activities

The Group adheres to cross-border standards to ensure compliance with the laws of countries outside Switzerland where clients are based. Transparent practices and compliance with local standards not only foster healthy, long-term business growth, but also helps to manage regulatory, civil, tax and business risks.

Under its cross-border policy, the Group does not conduct business outside the jurisdictions where it is authorised to do so and does not promote its products or services outside the jurisdictions where it is licensed. With the exception of countries of commercial interest where it has sufficient knowledge of local regulations, the Group generally takes a very restrictive approach based primarily on passive client acquisition, with contractual documentation signed in Switzerland.

The Executive Board ensures that cross-border risks are identified and managed appropriately. To this end, a table has been developed that provides a cross-cutting view of these risks by compiling and summarising foreign regulatory requirements for the financial sector.

Cross-border risk management from an operational perspective is the responsibility of the Compliance Department.

A cross-border risk analysis is submitted to the Board of Directors for approval once a year by the Compliance Department.

Tax compliance

The Group's policy in the area of tax compliance is to accept only client assets that are tax-compliant; any assistance in avoiding statutory tax obligations is prohibited. As a universal bank, BCGE ensures that its policy is implemented across the board, in all its activities and products, and takes into account foreign tax requirements when they affect its clients, its operations or its tax compliance.

9. Sustainability risk

The Group's sustainability risk is addressed by taking a double materiality approach:

- Financial materiality – or ESG risk – refers to how environmental, social and governance factors can affect the Group's financial performance, reputation and operating capacity.
- Impact materiality refers to how the Group's activities can impact the environment, employees, communities and society.

The Group reports on its efforts in the area of sustainability in its sustainability report, which it has published in accordance with GRI standards every year since 2023. Since 2024, the Task Force on Climate-related Financial Disclosures (TCFD) report has been included in the sustainability report, which sets out the Group's climate transition plan and describes its climate-related risk management system and its strategy to achieve its climate targets.

4. Policy in respect of derivative financial instruments and hedge accounting

Risk management strategy

In general, the Group uses derivative financial instruments to hedge banking book exposures that are sensitive to market risk factors such as swings in interest rates, exchange rates, share prices and indices. The Group holds a strategic portfolio of hedging instruments – mainly interest rate swaps and to a lesser extent interest rate options – to manage interest rate risk in the banking book. Hedging is performed solely with external counterparties.

Derivative financial instruments are also used for trading purposes on behalf of third parties and to hedge risks associated with trading on behalf of third parties and, to a lesser extent, with trading on the Bank's own behalf. The derivative financial instruments used for trading purposes are both "standardised" derivative instruments listed on regulated stock exchanges and over-the-counter (OTC) instruments. The underlying assets in the Group's derivative financial instruments are interest rates, exchange rates, equity securities, equity indices and commodities (such as precious metals).

Underlying positions and hedging instruments

The Bank uses hedge accounting mainly for the following transactions:

Underlying position	Hedging instruments
Interest rate risk in the banking book	
· Mortgage loans	· Interest rate swaps (IRS)
· Amounts due from clients	· Interest rate futures and options
· Financial investments: bonds	
· Loans and advances to clients	
· Bonds and mortgage-backed bonds	
Equity risk in the banking book	
· Financial investments: equity securities, investment funds	· Index futures and options

Aggregation of financial instruments

Interest rate risk in the banking book is mainly managed through macro-hedging. The Group may use micro-hedging for specific transactions, although in practice this approach remains an exception. Macro-hedging is performed at an overall level, and underlying positions sensitive to interest rates held in the banking book are considered in aggregate.

Equity risk in the banking book is chiefly managed through macro-hedging. Macro-hedging is applied to groups of underlying positions sensitive to the price of equities or movements in the primary stock exchange indices, such as the residual portion of investment funds about to be marketed (seed money).

Relationship between underlying operations and hedging transactions

With managing the interest rate risk in the banking book, the Group documents the economic relationship between the derivative financial instrument and corresponding group of underlying positions. This information is communicated to the units in charge of accounting, monitoring interest rate risk and managing interest rate risk. The documentation also includes the objectives of the interest rate hedging transaction and the corresponding risk strategy.

Measurement of effectiveness of hedging

The effectiveness of hedging transactions using derivative financial instruments is evaluated at an aggregate level. The economic value of all underlying positions sensitive to interest rates held in banking book is evaluated under two antagonistic scenarios (a +/-100 bp parallel shift in interest rates) to determine its sensitivity. The economic value of all strategic hedging transactions using derivative financial instruments is likewise evaluated under two scenarios (a +/-100 bp of parallel shift in interest rates).

A hedging transaction is deemed effective for each scenario if:

- the change in the economic value of the underlying position is opposite in sign to the change in the economic value of the hedging transactions (negative economic correlation); and
- the sensitivity of the hedging transactions is lower in absolute value than the change in the economic value of the underlying position.

Hedging effectiveness is evaluated at the end of each accounting period (month-end) and the results are presented to the Bank's Asset and Liability Management Committee.

Absence of effectiveness of hedging with derivative financial instruments

When hedges with derivative financial instruments are deemed to be no longer effective, the Group either restores their effectiveness by making a change to the strategic hedging portfolio with derivative financial instruments, or identifies the specific hedging transactions preventing them from being effective, and transfers them and records them in the trading book. The excess gain or loss from hedging transactions with derivative instruments is allocated to "Net trading income and fair-value adjustments". The Group has implemented a monitoring system to help ensure that hedges with derivative instruments are effective across the board, with additional monitoring prior to the end of each half-year.

4. Notes to the consolidated financial statements

4.01 Repurchase and reverse repurchase agreements (assets and liabilities)

(in CHF thousands)

	31.12.2025	31.12.2024

[1] Following a stock split, the par value of the BCGE share was reduced from CHF 50 to CHF 5. This does not change the total par value of the share capital. For clarity, figures from the previous year have been restated to reflect the new par value.

4.18 Stock options and shares granted to members of the Board of Directors, Executive Board members and other employees, and notes on employee share-ownership plan*

	Number of shares		Value (in CHF thousands) of shares	
	31.12.2025	31.12.2024	31.12.2025	31.12.2024
Members of the Board of Directors[1]	10,145	14,080	247	399
Executive board members[2, 3]	23,523	21,940	520	557
Other employees[4]	186,046	253,840	4,542	7,204
Total	**219,714**	**289,860**	**5,309**	**8,159**

* Following a stock split, the par value of the BCGE share was reduced from CHF 50 to CHF 5. The total par value of the share capital remains unchanged. For clarity, figures from the previous year have been restated to reflect the new par value.
[1] Number of free shares issued in 2025.
[2] Projected figure, to be paid in 2026 based on 2025 results.
[3] Amounts based on closing share price of CHF 24.60 as at 31 December 2025.
[4] Paid in 2025 for 2024 performance.

No stock options were granted to the members of the Board of Directors or Executive Board, or to employees.

The conditions governing the various share ownership plans are described in the Remuneration Report section of this report. Shares that are granted to employees as variable pay and shares that are acquired as part of the share incentive plan are subject to a lock-up period of five or ten years, depending on the employee's preference. Shares acquired as part of other share ownership plans are subject to a lock-up period of five years.

4.19 Receivables and commitments with respect to related parties

(in CHF thousands)

	Receivables		Commitments	
Receivables and commitments	31.12.2025	31.12.2024	31.12.2025	31.12.2024

Group companies	–	–	–	–
Affiliated companies	–	–	505	50,529
Governing bodies	–	–	–	–
Other related parties	–	–	–	–

The Group's companies are listed in note 4.07.

Receivables (mortgages) and commitments (current accounts) related to affiliated companies mainly concern public-law real-estate foundations associated with Geneva Canton.

Loans to members of the Board of Directors and Executive Board are mainly mortgage loans. Members of the Executive Board benefit from the same preferential conditions as the Bank's other employees, but not members of the Board of Directors.

Receivables and commitments related to qualified shareholders result from transactions carried out under specific terms and conditions for public authorities, which may change significantly from one year to the next.

4.20 Disclosure of significant shareholders

	31.12.2025		31.12.2024

4.21 Own shares and breakdown of share capital

Own shares

		2025	2024
BCGE shares	As at 1 January	787,320	672,060
	Purchases	215,877	717,630
	Sales	594,326	602,370
	As at 31 December	408,871	787,320
Average transaction price (average market value) in CHF		24.63	27.70
Commitments contingent on the transfer or acquisition of the Bank's own shares		–	–
Shares held by the Bank's pension fund		600,000	600,000
Treasury shares reserved for specific purposes		–	–

Following a stock split, the par value of the BCGE share was reduced from CHF 50 to CHF 5. The total par value of the share capital remains unchanged. For clarity, figures from the previous year have been restated to reflect the new par value.

Own shares were traded at market prices. The proceeds from the sale of own shares were allocated to the capital reserve.

There are no contingent liabilities relating to the transfer or acquisition of own equity securities (no change compared with the previous financial year).

The composition of the share capital with the rights and restrictions attached to the shares is provided in table 4.17.

Non-distributable reserves correspond to half of the nominal capital (CHF 360 million), pursuant to Article 671 of the Code of Obligations.

There is no statutory limit on the distributable portion of the statutory profit reserve or statutory capital reserve. The Bank is required to retain a portion of its equity capital to comply with regulatory capital requirements.

All transactions with shareholders were financed with liquid assets and were not offset against other transactions.

4.22 Ordinance against Excessive Compensation with respect to Listed Stock Corporations and Article 663b^{bis} CO for banks whose equity securities are listed

Please see note 4.22 to the parent company accounts.

Report of the Statutory Auditor

To the General Meeting of Banque Cantonale de Genève, Genève

Report on the Audit of the Consolidated Financial Statements

Opinion

We have audited the consolidated financial statements of Banque Cantonale de Genève and its subsidiaries (the Group), which comprise the consolidated balance sheet as at 31 December 2025, the consolidated income statement, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the consolidated financial statements (pages 64 to 105) give a true and fair view of the consolidated financial position of the Group as at 31 December 2025 and its consolidated results of operations and its consolidated cash flows for the year then ended in accordance with the Swiss accounting rules for banks and comply with Swiss law.

Basis for opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the “Auditor's responsibilities for the audit of the consolidated financial statements” section of our report.

We are independent of the Company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession that are relevant to audits of the financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Deloitte.

Value adjustments for default risks on amounts due from clients and mortgage loans

Key audit matters	Our audit response
The book values of amounts due from clients and mortgage loans amount respectively to CHF 6,431 mio and CHF 14,948 mio (total of balance sheet of CHF 34,905 mio). These amounts are presented net of value adjustments of CHF 85 mio including a value adjustment for inherent risks (CHF 61 mio). The estimated value adjustments are based on internal regulations. The value adjustments include an inherent part of significant judgement from Management. Considering the amounts due from clients and mortgage loans, the value adjustments for default risks are considered as a key audit matter. Please refer to pages 70 to 77 and to notes 4.02 and 4.16 of the notes to the consolidated financial statements on pages 87 and 94 for further information.	We verified and tested the key controls relating to the credit activity, in particular the processes for granting credits, the monitoring of credits, the assessment of value adjustments for default risks (provisioning rules) and the controls relating to the determination of value adjustments for inherent default risks. We considered the results of our tests on key controls to define our detailed procedures. Furthermore, we tested on a sample: • The different types of credit (mortgage, commercial and Global Commodity Finance), including those that had not been identified as eligible for value adjustment, in order to form our own opinion and to evaluate the need of an impairment and whether it has been properly recognised ; • Assumptions retained for the value adjustments ; • Credits which are closely monitored due to higher risks of default but not yet adjusted ; • The judgement level applied and approval of value adjustments in accordance with internal authorization rules ; • The opinions of external law firms consulted in the context recovery files ; • The correct booking of the value adjustments. Based on our procedures performed, we have collected sufficient appropriate audit evidences in order to cover the risk of valuation of value adjustments for default risks.

Valuation of the provisions for legal risks

Key audit matters	Our audit response
Due to its activity of universal and cantonal bank involving a significant number of clients, the Group is exposed to legal risks. A list of litigation cases, procedures and prosecutions is established by Management. The valuation of those provisions includes an inherent part of judgement from Management. Please refer to pages 81 and 82 and to note 4.16 to the consolidated financial statements on page 94 for further information.	We tested the adequacy of the design and the implementation of key controls for legal risks regarding the identification, the valuation of provisions and the proper recording of related provisions. We considered the results of our tests on key controls to define our detailed procedures below: • Review of the list of litigation cases, procedures and prosecutions established by Management ; • Review of the assumptions used by Management for the estimation of the level of provision of the significant cases and discuss them with Management and Head of Legal ; • Sending confirmations requests to the external lawyers consulted in connection with litigation or potential litigation ; • Test the proper recording of these provisions. Based on the procedures performed, we have collected sufficient appropriate audit evidences to cover the risk of valuation of the provisions for legal risks.

Other information

Deloitte.

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report but does not include the consolidated financial statements, the financial statements and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Board of Directors' responsibilities for the consolidated financial statements

The board of directors is responsible for the preparation of the consolidated financial statements that give a true and fair view of the consolidated balance sheet, its consolidated income statements and its consolidated cash flows in accordance with the Swiss accounting rules for banks and comply with Swiss law. The board of directors is also responsible for the internal control deemed necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the Board of Directors is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

A further description of our responsibilities for the audit of the consolidated financial statements is located on EXPERTsuisse's website at: https://www.expertsuisse.ch/en/audit-report. This description forms an integral part of our report.

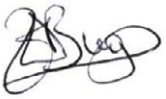

Deloitte.

Report on other legal and regulatory requirements

In accordance with Art. 728a para. 1 item 3 CO and PS-CH 890, we confirm that an internal control system exists, which has been designed for the preparation of the consolidated financial statements according to the instructions of the Board of Directors.

We recommend that the consolidated financial statements submitted to you be approved.

Introduction
Parent company financial statements

1. Registered name, legal form, registered office and purpose

Banque Cantonale de Genève (hereinafter BCGE or "parent company") is a limited company established by public law according to Article 763 of the Swiss Code of Obligations (Code des obligations, CO). It has the status of a cantonal bank as defined by the Swiss Federal Banking Act (Loi sur les banques, LB).

The Bank was registered in the Geneva Trade Register on 17 December 1993 and conducts its business under the registered name "Banque Cantonale de Genève SA".

The registered office and management of the Bank are in Geneva.

Activity report

The business of the Bank and outsourced activities are described in the notes to the consolidated accounts.

Employee headcount	31.12.2025	31.12.2024
Full-time equivalents	868.15	870.50
Headcount	918.00	921.00

2. Accounting and valuation principles

The financial statements of the parent company are drawn up according to Group principles, with the exception of the restatement of certain items, to provide a true and fair view of the consolidated financial statements, especially when it comes to handling own debt and equity securities.

Companies within the scope of consolidation, as set out in section 2 of the introduction to the consolidated financial statements in this report, are valued at the acquisition cost less any depreciation deemed appropriate.

3. Change in accounting principles

For comments on changes in accounting principles, please refer to section 2 of the introduction to the consolidated financial statements in this report.

4. Risk management

For comments on risk management, please refer to section 3 of the introduction to the consolidated financial statements in this report.

4. Notes to the financial statements
Parent company

4.01 Repurchase and reverse repurchase agreements (assets and liabilities)

The parent company figures are identical to the consolidated figures because only the parent company handles these transactions. Please see note 4.01 to the consolidated financial statements.

Other related parties	23	59	47,841	54,502

	Receivables		Commitments	
Possible receivables and commitments	31.12.2025	31.12.2024	31.12.2025	31.12.2024
Qualified shareholders	–	–	50	50
Group companies	–	–	160,986	179,667
Affiliated companies	–	–	505	50,529
Governing bodies	–	–	–	–
Other related parties	–	–	–	–

The Group's companies are listed in note 4.07.

Receivables (mortgages) and commitments (current accounts) related to affiliated companies mainly concern public-law real-estate foundations associated with Geneva Canton.

Loans to members of the Board of Directors and Executive Board are mainly mortgage loans. Members of the Executive Board benefit from the same preferential conditions as the Bank's other employees, but not members of the Board of Directors.

Receivables and commitments related to qualified shareholders are banking transactions executed at special conditions for public authorities, which may be subject to significant fluctuations from one financial year to the next.

4.20 Disclosure of significant shareholders

The parent company figures are identical to the consolidated figures. See note 4.20 to the consolidated financial statements.

4.21 Own shares and breakdown of share capital

The parent company figures are identical to the consolidated figures. See note 4.21 to the consolidated financial statements.

* Following a stock split, the par value of the BCGE share was reduced from CHF 50 to CHF 5. The total par value of the share capital remains unchanged. For clarity, figures from the previous year have been restated to reflect the new par value.

1 The principles of remuneration for the Board of Directors are described in the remuneration report on page 44.

2 Limits on Lombard loans or mortgage-backed loans.

3 BCGE directors receive a fixed annual salary plus, in some cases, compensation for their functions. The regulations governing compensation apply here. No exceptions were made.

4 BCGE shares are locked up for a period of five years. Shares remain locked up even if members of the Board of Directors leave the Bank. Stock options are not included in BCGE's share ownership plan.

5 The members of the Board of Directors benefit from a share-ownership plan for each full year of service from one annual general meeting of shareholders to the next:
Period from January to April 2025: average real purchase price of CHF 24.32 at 10 June 2025, with a discounted value of CHF 18.17.
Period from May to December 2025: estimate of CHF 24.60 at 31 December 2025 with a discounted value CHF 18.38.
Period from January to April 2024: average real purchase price of CHF 28.32 at 12 June 2024 with a discounted value CHF 21.16.
Period from May to December 2024: estimated price of CHF 25.50 at 31 December 2024 with a discounted value CHF 19.05.

6 No figures provided as he was no longer a member of the Board of Directors at 31 December 2025.

7 No figures provided as he was no longer a member of the Board of Directors at 31 December 2024.

* Following a stock split, the par value of the BCGE share was reduced from CHF 50 to CHF 5. The total par value of the share capital remains unchanged. For clarity, figures from the previous year have been restated to reflect the new par value.

1 Projected figure, to be paid in 2026 based on 2025 results.

2 Subject to a five- to ten-year lock-up period, discounted value calculated using closing price at 31 December 2025. Stock options are not included in BCGE's share ownership plan.

3 Discounted value calculated using closing price of CHF 24.60 as at 31 December 2025, discounted value.

4 Cumulative value of social security and pension fund contributions; projected based on total remuneration.

5 Free shares offered to Executive Board members, on the condition of simultaneous purchase of shares at market price.

6 Restricted shares acquired at market price as part of share-ownership plans.

7 Limits on Lombard loans or mortgage-backed loans.

8 Pro rata remuneration owing to change of CEO on 6 March 2024.

9 These figures take into account changes within the Executive Board during the reporting year.

The principles of remuneration are explained on page 46. No compensation was paid indirectly to the members of the Executive Board. In 2025, no compensation was paid directly or indirectly to former members of the Board of Directors or to any close associates of members of the Board of Directors or the Executive Board.

At 31.12.2025, no compensation that does not comply with market practices was granted to close associates of members of the Board of Directors or the Executive Board.

At 31.12.2025, no outstanding credits or loans that do not comply with market practices were granted to close associates of members of the Board of Directors or the Executive Board.

Proposed distribution of profit
Dividend of CHF 0.70 per share*

At the general meeting of shareholders on 28 April 2026, the Board of Directors will propose a dividend of 14% (13% in 2024)

Amount available for distribution:

(in CHF thousands)	31.12.2025	31.12.2024
Profit for the period	198,732	212,978
Released from the tax-exempt capital contribution reserve	12,600	11,520
Total available to the general meeting of shareholders	**211,332**	**224,498**
Dividend of 14% (13% in 2024)	50,400	46,800
of which 3.5% tax-exempt dividend (3.2% in 2024)	*12,600*	*11,520*
Special allocation to the State of Geneva (20% of dividend paid)	10,080	9,360
Total distributed	**60,480**	**56,160**
Allocation to the regulatory earnings reserve	150,852	168,338

* Proposal to be submitted to the General shareholders' meeting on 28 April 2026.
As indicated on page 17 of this report, the Bank split its share capital with effect from the opening of the SIX Swiss Exchange on 15 October 2025. The 10-for-1 stock split multiplied the number of shares (and therefore the total votes) by ten. At the time, it was composed of 7,200,000 shares with a nominal value of CHF 50 per share and has now been divided into 72,000,000 shares at CHF 5 per share. The total par value of the share capital remains unchanged. For clarity, figures from the previous year have been restated to reflect the new par value.

Report of the Statutory Auditor

To the General Meeting of Banque Cantonale de Genève, Genève

Report on Audit of the Financial Statements

Opinion

We have audited the financial statements of Banque Cantonale de Genève (the Bank), which comprise the balance sheet as at 31 December 2025, the income statement and the statement of changes in equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the financial statements (pages 112 to 131) as at 31 December 2025 comply with Swiss law and the Bank's articles of incorporation.

Basis for opinion

We conducted our audit in accordance with Swiss law and Swiss Standards on Auditing (SA-CH). Our responsibilities under those provisions and standards are further described in the "Auditor's responsibilities for the audit of the financial statements" section of our report.

We are independent of the Company in accordance with the provisions of Swiss law and the requirements of the Swiss audit profession that are relevant to audits of the financial statements of public interest entities.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Deloitte.

Value adjustments for default risks on amounts due from clients and mortgage loans

Key audit matters	Our audit response
The book values of amounts due from clients and mortgage loans amount respectively to CHF 5,621 mio and CHF 14,948 mio (total of balance sheet of CHF 34,690 mio). These amounts are presented net of value adjustments of CHF 97 mio including a value adjustment for inherent risks (CHF 61 mio). The estimated value adjustments are based on internal regulations. The value adjustments include an inherent part of significant judgement from Management. Considering the amounts due from clients and mortgage loans, the value adjustments for default risks are considered as a key audit matter. Please refer to pages 70 to 77 and to notes 4.02 and 4.16 of the notes to the financial statements on pages 116 and 121 for further information.	We verified and tested the key controls relating to the credit activity, in particular the processes for granting credits, the monitoring of credits, the assessment of value adjustments for default risks (provisioning rules) and the controls relating to the determination of value adjustments for inherent default risks. We considered the results of our tests on key controls to define our detailed procedures. Furthermore, we tested on a sample: • The different types of credit (mortgage, commercial and Global Commodity Finance), including those that had not been identified as eligible for value adjustment, in order to form our own opinion and to evaluate the need of an impairment and whether it has been properly recognised ; • Assumptions retained for the value adjustments ; • Credits which are closely monitored due to higher risks of default but not yet adjusted ; • The judgement level applied and approval of value adjustments in accordance with internal authorization rules ; • The opinions of external law firms consulted in the context recovery files ; • The correct booking of the value adjustments. Based on our procedures performed, we have collected sufficient appropriate audit evidences in order to cover the risk of valuation of value adjustments for default risks.

Valuation of the provisions for legal risks

Key audit matters	Our audit response
Due to its activity of universal and cantonal bank involving a significant number of clients, the Bank is exposed to legal risks. A list of litigation cases, procedures and prosecutions is established by Management. The valuation of those provisions includes an inherent part of judgement from Management. Please refer to pages 81 and 82 and to note 4.16 to the financial statements on page 121 for further information.	We tested the adequacy of the design and the implementation of key controls for legal risks regarding the identification, the valuation of provisions and the proper recording of related provisions. We considered the results of our tests on key controls to define our detailed procedures below: • Review of the list of litigation cases, procedures and prosecutions established by Management ; • Review of the assumptions used by Management for the estimation of the level of provision of the significant cases and discuss them with Management and Head of Legal ; • Sending confirmations requests to the external lawyers consulted in connection with litigation or potential litigation ; • Test the proper recording of these provisions. Based on the procedures performed, we have collected sufficient appropriate audit evidence to cover the risk of valuation of the provisions for legal risks.

Deloitte.

Other information

The Board of Directors is responsible for the other information. The other information comprises the information included in the annual report but does not include the consolidated financial statements, the financial statements and our auditor's reports thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Board of Directors' responsibilities for the financial statements

The Board of Directors is responsible for the preparation of the financial statements in accordance with the provisions of Swiss law and the Bank's articles of incorporation, and for such internal control as the Board of Directors determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern, and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion.

Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Swiss law and SA-CH will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A further description of our responsibilities for the audit of the financial statements is located on EXPERTsuisse's website at: https://www.expertsuisse.ch/en/audit-report. This description forms an integral part of our report.

Deloitte.

Report on other legal and regulatory requirements

In accordance with Art. 728a para. 1 item 3 CO and PS-CH 890, we confirm that an internal control system exists, which has been designed for the preparation of the financial statements according to the instructions of the Board of Directors.

Furthermore, we confirm that the proposal of the Board of Directors comply with Swiss law and the Bank's articles of incorporation. We recommend that the financial statements submitted to you be approved.
